LIFE SENTENCE FOR LEOPOLD AND LOEB

Judge Caverly Finds Youths Mentally Twisted: To Hang Would Compound The Crime

In Lengthy Opinion the Court Gives Reason for Committing Youths to Seclusion from Society.

DARROW TO RETIRE

By CARL W. HARRIS

(I. N. S. Staff Correspondent.)

Criminal Court Room, Chicago, Sept. 10.—Imprisonment for life.

Nathan F. Leopold, Jr., and Richard **Loeb,** the gay young collegian who **kidnapped** little Bobby Franks, dashed **his head** in with a cold chisel and **stuffed** his lifeless body into an isolated drain pipe today were sentenced **to spend** the remainder of their natural lives behind the walls of the Illinois **state penitentiary** at Joliet in expiation of that crime.

"The defendants will be sentenced to the state penitentiary at Joliet for the rest of their natural lives."

That was the pronouncement of **Judge** John R. Caverly founded upon **the pleas** of guilty, who says though **they** were legally and morally sane **they were** mentally twisted, queer, irresponsible; pleas that they should not die, "because it would only compound the crime if these two boys **were to hang** by the neck," but should be put away from society for the remainder of their lives.

It was the verdict that the defendants' relatives hoped for—the verdict Clarence Darrow, the shaggy old veteran of scores of hard fought legal battles, pleaded for with all his eloquence during the trying days of their long drawn out trial. It was the crowning achievement of his brilliant legal career. A career spent defending the accused and from which he now will retire—satisfied.

The Best Thing About It.

The verdict does away with all possibilities of further litigation. It was more than any of those interested in the defendants had dared to hope for and they are content.

The defendants looked bored. They looked toward their bailiffs and smiled and in a moment they were back again in the bull pen.

They were also sentenced to terms of 99 years in the penitentiary on the kidnaping charge.

The decision was read and sentence pronounced while the defendants were seated. They were not called to the bar as is customary in such cases nor was the usual formula—"Have you anything to say why sentence should not be pronounced against you"—gone through with.

Through the reading, the young **slayers** listened with rapt attention, **but** without exhibiting the slightest **concern.** If they feared their lives **would** be forfeited, they did not show **it and** when life imprisonment verdict was read, they gave no outward sign of relief.

They were smiling when they entered the courtroom and the smile was still present as they were hurried out. "Supermen" they proved themselves to be to the end.

Almost as soon as it was pronounced, word of the verdict spread to the thousands gathered in the narrow streets outside the criminal court building but there was no demonstration.

The entire procedure took less than ten minutes and 20 minutes after the case was called the courtroom was devoid of the crowd.

Immediately after the verdict was pronounced, state's attorney Robert E. Crowe issued this statement:

"When the state's attorney arrested the defendants, solved what was then a mystery and by the thoroughness of his preparation compelled the defendants to plead guilty, presented a mountain of evidence to the court and

Youths Cannot Be Freed On Parole In Less Than 53 Years Under The Law

Chicago, Sept. 10 (INS.)—Nathan Leopold, Jr., and Richard Loeb cannot under the law of Illinois, be freed from prison for 53 years under the sentence imposed today by Judge John R. Caverly.

The Illinois Criminal Code provision for parole provide that no person sentenced to life imprisonment for murder can be released on parole until they have served at least twenty years of their sentence.

The law also provides that no person sentenced for a definite term of years for a capital offense can be released on parole until at least one-third of that sentence has been served.

One third of the 99 year sentence imposed on Leopold and Loeb will be 33 years. As Judge Caverly's sentences do not run concurrently, but successively, the least time that they will be eligible to parole will be 53 years—20 on the life sentence and 33 on the 99 year sentence.

Both are now 20 years old. They will be 73—if they survive the rigors of prison life—before they will be eligible for release.

MAY HE NEVER RETURN

Chicago, Sept. 10 (INS.)—Following the reading of his decision sending Nathan Leopold Jr., and Richard Loeb to prison for life, Judge John R. Caverly warned everybody, including newspapermen, that to follow him might mean death.

"I want no one, not even newspapermen, to follow me when I leave this court room," he said. "Anyone will be arrested who does so and even more serious consequences might be the result. I shall go immediately to a loop hotel and leave town late today for a destination I do not want made public."

CAR LOADINGS INCREASE

New York—For the first time this year freight traffic exceeded the 1,000,000 car mark in the last week of August. Loadings totalled 1,020,339 cars. This was the highest of any week in 1924, and an increase of 38,091 cars over the previous week.

POTTSVILLE LAD OF 14 KILLS GRANDMA TO GET HER MONEY

Pottsville, Pa., Sept. 10. (INS.)—"I did it to get money," 14-year-old William Cavalier confessed today according to state police, when accused of the murder of his aged grandmother, Catherine Cavalier, whose lifeless body was found last night in a room of their home at Mechanicsville, a suburb, with bullet wounds in the head and heart.

"I searched her and took her pocketbook," the boy told the officers, and "then I locked the body of grandmother in a bedroom. I told grandfather that she had gone to Florida and he did not suspect what I had told him was not the truth."

FARM CENSUS MUST BE TAKEN AT TIME OF TRI ASSESSMENT

The regular triennial assessment of all property is now being made over the County, and in connection therewith, this year for the first time, the assessors are required to collect certain information pertaining to the agriculture of the State, as per an act passed by the 1921 Legislature.

The questions are as follows:

No. in family, male—— female——.

Owner or renter ....

Total acres of land in farm ....

Acres harvested or to be harvested:

(Continued on Page Five.)

STATE TO BEAUTIFY THE HIGHWAYS BY PLANTING OF FLOWERS, VINES AND GRASSES ON BANKS AND SLOPES

Harrisburg, Sept, 9—Banks and slopes along Pennsylvania highways next year will glow with color. Flowering grasses, vines and shrubs will hide the yellow scars where fills or cuts have been made. The Department of Highways, which some time ago announced the inauguration of a planting program, has revised that program to include the setting out of blossom-bearing vines and small trees.

Highway department officials during the past few weeks have been in consultation with the Department of Agriculture and Forests and Waters, the Game Commission, the Bureau of Municipalities and the State Botanist, relative to planting along Pennsylvania highways. Both Paul D. Wright, Secretary of Highways, and William H Connell, Engineering Executive, are anxious to hasten planting so that passage over Pennsylvania roads will not be continuously through landscapes scarred by the activities of road builders.

The Highway Department in instructions to engineers has notified them that they may make requisition for vines and other growths they deem necessary. The State will require approximately 300,000 vines. These will include wild roses, rambler and creeper roses; the matrimony vine; which in spring has a yellow blossom; the kutzu vine, which bears a colorful berry; bush honeysuckle, the blossoms of which range from white to red; the yellow forsythea; shrub dogwood, which has white and pink blossoms; spirea, with its white blossoms; the snow berry, the Japanese barberry and the liberty iris, which has a lavender blossom.

But the colors will not be confined to the vines the Dept. will plant. The engineers are making selections from ten grasses—including white clover, the pink alsike clover, the blue hairy vetch, the purple alfalfa and yellow vaccaria. These grasses will be used for slope planting in conjunction with orchard grass, meadow fescue, tall meadow oat grass, Canada blue grass and perennial rye grass. In planting on the berms or shoulders of the roads the Department will use Kentucky blue grass, red top, red fescue, alsike clover, perennial rye grass and white clover.

"At comparatively small cost Pennsylvania highways can be given a parkway resemblance," said William H. Connell today. "There is no reason why the State's many marvelous miles of scenic splendors should be marred by unsightly cuts or fills and naked shoulders."

LAST SHICK TEST TOMORROW

Clearfield mothers should remember that the last Shick test for local kiddies will be given at Red Cross headquarters in the Murray or Hess building on South Second street.

Take advantage of this opportunity to have your children immunized from that scourge of childhood—diphtheria.

ALL CLEARFIELDERS SHOULD VISIT THE PARK IMPROVEMENT

Visitors to Clearfield Should Be Taken Over to Park to See What Is Being Done.

BE PROUD OF IT

Clearfield county's biggest and best fair is scheduled to open on Tuesday, September 23d and will continue day and night until Friday evening, September 26th. Record crowds and the best exhibition ever given at a county fair in Central Pennsylvania is the promise of Manager Charles Callahan and his hardworking board of directors.

The grounds will be thoroughly in keeping with the high promise of the fair as they are now in the best shape they have ever been in while the big new fireproof grandstand, with its accompanying modern and general improvements add the last word to accommodations about the park.

The big stand is fast nearing completion. All the concrete work has been completed, the steel is all up and the roof of the big structure will be completed this week. By the end of next week at the outside the contractors will have fully completed and turned the stand over to the Fair Association and it will indeed be a building in which all may take just pride and needs but to be seen to be appreciated.

The American Seating Company which has the contract to place the 3100 comfortable chairs, with which the big stand will be equipped, has a large crew of men at work erecting or placing these seats, and they, too, expect to have their work completed by the time the stand is turned over to its owners.

The ground about the stand has been filled in and graded and people who have not visited the Park since last fair will hardly know the place when they return this year.

The crowning achievement of the fair management this year in the way of entertainment will be the turning

(Continued on Page Three.)

MARRIAGE ANNOUNCED

Mr. John Boyce announces the marriage of his daughter Grace Wilhelm to Mr. Clyde N. Bartley, of Clearfield, on Monday, September 8, 1924. The ceremony was performed by Rev. R. F. Ruch, at his home in Northumberland, Pa.

"NO APPEAL, WE ARE THROUGH" SAYS DARROW

Criminal courts building, Chicago, Sept. 10 (INS.)—"Of course I am satisfied with the sentence," said Attorney Clarence Darrow, Chief Counsel for the defense, whose eloquent plea is credited with blocking State's demand for a hanging penalty for Nathan Leopold, Jr. and Richard Loeb.

"I always hated capital punishment," Darrow continued. "I do not believe that it should be administered to young people. Perhaps the sentence is worse than the death penalty for the two boys but not for their families. There will be no appeal. We are through."

DEFENSE DAY PROCLAMATION

Friday, September 12, 1924, has been designated by the United States government, through the War Department, as Defense Day, and will be so observed throughout the entire country.

Therefore, in accordance with said order or request of the Secretary of War and the different organizations working to that end, I call upon the citizens of Clearfield to observe the day by meeting together at the Court House at 7:30 o'clock Friday evening, September 12th, and taking part in the exercises arranged by the committee in charge.

The meeting will be held on the Court House plaza, unless weather conditions forbid. In that event the exercises will be held in the court room.

All citizens of the community are requested to be present and make this civic observance of Defense Day successful and duly creditable to our town and people.

FRANK KITTELBERGER, Burgess.

Clearfield, Pa., Sept. 10, 1924.

DOPING OUT NEXT PENNA. GOVERNOR POPULAR PASTIME

Harrisburg, Sept. 10, (INS)—Political interest never wanes in the selection of gubernatorial candidates and prospective senators. The least cause for talk brings the whole field back into the limelight—favorites, sure-winners, and dark horses. They are all again facing the barrier.

Impetus was given political discussion by the rumors from Washington that former Governor William Cameron Sproul would be a candidate for the Republican Senatorial nomination from Pennsylvania in 1926. The former Governor is known to have had senatorial ambitions for some time.

When the late Senator Boise Penrose, who was the undisputed political boss of Pennsylvania died, many of Governor Sproul's friends urged him to resign as Governor and accept appointment to the Senate. He refused to yield to their importunities, but instead appointed George Wharton Pepper, noted constitutional lawyer of Philadelphia, to the vacancy. Senator Pepper in 1922 was elected to serve out the four years balance of the Penrose term to which the late Senator was elected in 1920.

Now the story comes from Washington that Senator Pepper will retire at the end of his term, in 1926, and the report continues that he may be given a diplomatic post if the Coolidge administration continues in power. If former Governor Sproul becomes a candidate it is certain he will have the

(Continued on Page 6.)

Mass. Republicans Are Satisfied With Gillett; Give Him Re-Nomination

Boston, Mass., Sept., 10. (INS.)—Incomplete returns of yesterday's primary elections today showed conclusively that Speaker Frederick H. Gillett received the Republican nomination for United States Senate and that Lieut. Alvan T. Fuller will be the Republican candidate for governor.

The Republicans nominated State Senator William S. Youngman, for state treasurer and Alonzo Cook was re-nominated for state auditor.

(Continued On Page Four.)

MICHIGAN VOTERS TIRE OF COUZENS; HAD A CLOSE CALL

Detroit, Mich., Sept. 10. (INS.)—United States Senator James Couzens was engaged in a nip and tuck fight for re-nomination with Federal Judge Arthur J. Tuttle, according to incomplete returns from the state and meagre returns from Detroit which were slowly coming in today.

Tuttle was leading Couzens in central and southwestern counties by about ten thousand, but Wayne county was rolling up a two to one for the senator. Early returns indicated Couzens swept the upper peninsula counties and a few of the northern counties in the lower peninsula. Election officials were overwhelmed by a last minute rush of voters and not a vote was received from Wayne county until after two a. m.

Governor Alexander Groesbeck running for a third term has piled up a two to one lead over his field and is apparently assured of victory.

JOY REIGNS SUPREME AS PEOPLE OF OSCEOLA, HOUTZDALE AND MADERA ARE TO GET ROAD FINISHED BY OCTOBER 1ST

There is joy, large gobs of it, up in the Osceola-Houzdale-Madera country these days, all because they have a road up through that section as hard as the heads of a lot of the citizenry but which differs from the proletariat up that way considerably, in that the new road gets a bath frequently, or every time it rains while—oh, what's the use, we started out to go into details on that road.

When, and for a long time after Clearfield county began to hump herself out of the mud, the southeastern end of that busy populous section extending south from Osceola to the Cambria county line was almost entirely ignored with the exception of a short stretch or two about Madera.

A couple of years ago the energetic business and professional men of that neck of the woods got busy and by steady persistent effort and clamor finally got their claims for improved highways in a favorable light before the powers that be in State and County and those who live until tomorrow evening—and you never heard of any one dying within 24 hours—will see a hard-surfaced or concrete road completed from the end of the present finished road below Houtzdale, through that village and on up to Madera, the capital of Bigler township, and the home of Cliff Gatehouse noted "captain of township politics", who, believing that "coming events cast their shadows before them," is even now fattening a pair of crows, which he expects, and we do too, will grace the banquet board when he assembles his fellow workers to the banquet following the coming fall rough and tumble to "eat the crow" heading their way.

But getting back to that road, we started out to say that the two miles of road making, the final connection between Houtzdale and Madera was completed by Contractor Clyde Thompson three weeks ago and will be thrown open to traffic tomorrow. It is a fine job too.

Then, too, the stretch of nearly two and one-half miles extending from the end of the present concrete between Osceola and Houtzdale, and thru Houtzdale borough, will be completed entirely by tomorrow evening. Contractors Avery & Bailey, who have also done a fine job expecting to pour their last concrete this evening, if the weather permits.

By October 1st, this road will be opened to traffic and by that time

(Continued on Page Five.)

COMMITTEE NAMED FOR DEFENSE DAY OBSERVANCE HERE

Appropriate Ceremony to Be Carried Out On the Court House Steps This Friday Evening.

MAKING PROGRAM

Owing to some misunderstanding or inexplainable slipup, the arrangements for observance of Defense Day in Clearfield have been late in functioning. Several weeks ago the authorities and organizations preparing for Defense Day wrote to their representatives here and asked for names of citizens to serve on the Military and Civilian Committees provided for by the program agreed upon at Washington.

The list of Clearfield citizens to serve on the two committees designated Military and Civilian, were duly sent in. The names for the Military Committee were Colonel Fred B. Kerr, Edward T. Kelly and William Leitzinger. The names for the Civilian Committee were Hon. A. R. Chase, Hon. W. I. Swoope, Hon. W. I. Betts, Frank Kittelberger, A. H. Woodward, John F. Short.

The names for the Civilian Committee were to be forwarded to Governor Pinchot and receive appointment at his hands. For some reason no such appointment was made at Harrisburg, although the members of the Military Committee were of the opinion the Civilian Committee was appointed and functioning. Not until the first of this week was it known that no such committee had been named.

The gentlemen named for the Civilian Committee have been requested to act with the Military Committee and are now preparing a suitable program for Defense Day observance, as per proclamation of Mayor Kittleberger. The program of exercises will be duly published as fully as time will permit.

ELECT CAMP DIRECTORS

The stockholders of the Crystal Springs Hunting Club at their annual meeting yesterday added the following to their Board of directors - B. W. B. Hawes, of Cherrytree; J. Emmet Harder and Daniel Lefler, of Clearfield. The Board of Directors of the Club is now made up as follows: George M. Rosser, Roy Boyce, W. W. Wrigley, Howard Stewart, Ir B. Waite and A. L. Kline.

REMARRIED DUBOIS COUPLE

Mr. and Mrs. Carl G. Olson of DuBois, were re-married at St. John's Lutheran parsonage Sept. 8th by the pastor Rev. E. Roy Hauser. The ring ceremony was used. They will reside in their former home 516 State street, DuBois.

OLD CLOTHES WANTED

The Salvation Army has several requests for old clothes, both men's and women's clothes. They will be glad to call for all such articles any charitable person may have to give away. Kindly call Capt. Watson, Bell phone 170J.

B-R-R-R, WINTER IS IN SIGHT

Washington, Sept. 10 (INS.)—Winter is in sight. The United States weather bureau predicts today that there would be light frosts in the eastern portion of the Ohio Valley, the Lower Lake region and in the interior of New York and Pennsylvania tonight.

The weather will be generally cooler east of the Mississippi [illegible]

LIFE SENTENCE FOR LEOPOLD AND LOEB

(Continued from Page One.)

made his argument, his duty was fully performed. He is in no measure responsible for the decision of the court. The responsibility for that decision rests with the judge alone. Like all other law-abiding citizens when the court pronounces his decision, I must be content with it bcause his decision in this case is final. While I do not intend and have no desire to criticise the decision of the court, I still believe that the death penalty is the only penalty feared by murderers."

The text of Judge Caverly's decision follows:

"In view of the profound and unusual interest that this case has aroused, not only in this community, but in the entire country and even beyond its boundaries, the court feels it his duty to state the reasons which have led him to the determination he has reached.

It is not an uncommon thing that pleas of guilty are entered in criminal cases, but almost without exception in the past, such pleas have been the result of a virtual agreement between the defendant and the state's attorney whereby, in consideration of the plea the state's attorney consens to recommend to the court a sentence deemed appropriate by him, and in the absence of special reasons to the contrary, it is the practice of the court to follow such recommendations.

In the present case, the situation is a different one.

A plea of guilty has been entered by the defense without a previous understanding with the prosecution and without any knowledge whatever on its part, moreover the plea of guilty did not in this particular case, as it usually does, render the task of the prosecution easier by substituting admission of guilt for a possibly difficult and uncertain chain of proof. Here the state was in possession not on[illegible] the essential substantiating fact[illegible] also of voluntary confessions [illegible] part of the defendants. The [illegible] of guilty, therefore does not make a special case in favor of the defendants.

And since both of the cases, that, namely of murder and that of kidnapping for ransom, were of a character, which invested the court with discretion as to the extent of the punishment, it became his duty under the statute to examine witnesses as to the aggravation and mitigation of the offense. This duty has been fully met. By consent of counsel for the state and for the defendants, the testimony in the murder case has been accepted as equally applicable to the case of kidnaping for ransom. In addition, a prima facie case was made out for the kidnaping case as well.

The testimony introduced, both by the prosecution and the defence has been as detailed and accurate as tho the case had been tried before a jury. It has been given the widest publicity, and the public is so fully familiar with all its phases that it would serve no useful purpose to re-state or analyze the evidence.

By pleading guilty, the defendants have admitted legal responsibility for their acts; the testimony has satisfied the court that the case is not one in which it would have been possible to set up successfully the defense of insanity, as insanity is defined and understood by the established law of this state for the purpose of the administration of criminal justice.

The court, however, feels impelled to dwell briefly on the mass of data produced as to the physical, mental and moral condition of the two defendants.

They have been shown in essential respects to be abnormal; had they been normal they would not have committed the crime. It is beyond the province of this court, as it is beyond the capacity of human science in its present state of development to fix ultimate responsibility for this act.

At the same time the court is willing to recognize that the careful analysis of life-history of the defendants and of their present mental, emotional and ethical condition, has been of extreme interest and is a valuable contribution to criminology, and yet the court feels strongly that similar analysis made of other persons accused of crime would probably reveal similar or different abnormalities. The value of such tests seems to lie in their applicability to crime and criminals in general. Since they concern the broad questions of human responsibility and legal punishment, and are in no wise peculiar to these individuals, they may be deserving of legislative but not of judicial consideration. For this reason the court is satisfied that his judgment in the present case cannot be affected thereby.

The testimony in this case reveals a crime of singular atrocity. It is, in a sense inexplicable; but it is not thereby rendered less inhuman or repulsive. It was deliberately planned and prepared for during a considerable period of time. It was executed with every feature of callousness and cruelty.

And here the court will say, not for the purpose of extenuating guilt, but merely with the object of dispelling a misapprehension that appears to have found lodgment in the public mind, that he is convinced by conclusive evidence that there was no abuse offered to the body of the victim. But it did not need that element to make the crime abhorrent to every instinct of humanity, and the court is satisfied that neither in the act itself, nor in its motive or lack of motive nor in antecedents of the offenders, can he find any mitigating circumstances.

For both the crimes of murder and of kidnaping for ransom, the law prescribes different punishments in the alternative. For the crime of murder the statute declares:

'Whoever is guilty of murder, shall suffer the punishment of death, or imprisonment in the penitentiary for his natural life, or for a term not less than 14 years.

'If the accused is found guilty by a jury, they shall fix the punishment by their verdict; upon a plea of guilty, the punishment shall be fixed by the court.'

For the crime of kidnaping for ransom the statute reads:

'Whoever is guilty of kidnaping for ransom shall suffer death, or be punished by imprisonment in the penitentiary for life or any term not less than five years.'

Under plea of guilty the duty of determining the punishment devolves upon the court and the law indicates no rule or policy for the guidance of his discretion. In reaching his decision, the court would have welcomed the counsel and support of others. In some states the legislature in its wisdom has provided for a bench of three judges to determine the penalty in cases such as this. Nevertheless, the court is willing to meet his responsibilities. It would have been the path of least resistance to impose the extreme penalty of the law. In choosing imprisonment instead of death, the court is moved chiefly by the consideration of the age of the defendants, boys of 18 and 19 years.

It is not for the court to say that he will not in any case enforce capital punishment as an alternative, but the court believes that it is within his province to decline to impose the sentence of death on persons who are not of full age.

This determination appears to be in accordance with the progress of criminal law all over the world and with the dictates of enlightened humanity. More than that, it seems to be in accordance with the precedents hitherto observed in this state. The records of Illinois show only two cases of minors who were put to death by legal process—to which number the court does not feel inclined to make an addition.

Life imprisonment may not, at the moment, strike the public imagination as forcibly as would death by hanging; but to offenders, particularly of the type they are, the prolonged suffering of years of confinement may well be the severer form of retribution and expiation.

The court feels it proper to add a word concerning the effect of the parole law upon the punishment of these defendants. In the case of such atrocious crimes it is entirely within the discretion of the Department of Public Welfare, never to admit these defendants to parole. To such a policy the court urges them strictly to adhere. If this course is adhered to and persevered in the punishment of these defendants will both satisfy the end of justice and safeguard the interests of society.

I therefore sentence you, Nathan F. Leopold, Jr., to the state penitentiary at Joliet for the remainder of your natural life for the crime of murder and to the same penitentiary for a term of 99 years for the crime of kidnaping for ransom.

And I sentence you, Richard A. Loeb, to the state penitentiary at Joliet for the remainder of your natural life for the crime of murder and to the same penitentiary for 99 years for the crime of kidnaping for ransom."

By CARL W. HARRIS

I. N. S. Staff Correspondent

Chicago, Sept. 10—Nathan F. Leopold Jr., and Richard A. Loeb, slayers of Robert Franks, went to the bar of Justice this morning to learn the payment which civilization will demand for their "crime for a thrill."

Death on the gallows or imprisonment for life—these [illegible] the alternatives that confronted them as they prepared to go into court. And the feeling throughout the [illegible] was three to two that the sentence of death would not be passed.

Meanwhile all Chicago waited with all New York and all San Francisco and all London and Paris and New Zealand for the clock to tick its slow monotonous way around to 9:30 when what probably will be the briefest pronouncement of any such involved criminal case in history to be read by Judge John R. Caverly—Judge and jury in this strange fantastic murder.

So closely has his decision, written more than four days ago, been guarded that this morning there was no one to say what it might be. Only he and his stenographer, sworn to secrecy, knew.

In the shadowy streets near the criminal court building, hundreds gathered before the sun broke thru a lowering, overcast sky, standing in little shivering groups, knowing they had no chance to get in or even near the little sixth floor courtroom.

And before daybreak the first of the 500 policemen and deputies who will patrol the district of the court by the time the verdict is rendered, were on duty keeping people moving and watching with suspicious eyes all who neared the block.

At 8 o'clock, a police car containing the three "crack" [illegible] Chicago's police and detective department drew up to the Edgewater Beach Hotel, home of Judge Caverly. Other cars with a picked squad of officers for passengers, proceded and followed it. These were Chicago's precautions against the execution of threats against the jurists life. At the Criminal Court building, the Judge dismounted in a street cleared entirely of people and will walk thru a solid lane of guards to the elevator. In this guards rode with him to the fifth floor where he walked through another file to his courtroom, one flight up.

The two defendants also were guarded and no one was permitted to see them. Bailiffs reported them unaffected "supermen" to the end.

Tubular Axles Best Fitted For Four-Wheel Brakes

The Imperial

A new type of combustion chamber that burns all the gas and a new way of distributing the gas equally to all cylinders are two reasons why the Chrysler Six, with an engine only 3-inch bore by 4¾-inch stroke delivers 68 horsepower, top speed better than 70 miles an hour with gasoline economy safely 20 miles to the gallon. When you take your demonstration the performance will speak for itself. But don't forget to ask about the oil-filter that automatically cleanses all the crankcase oil every 25 miles and the air-cleaner which passes none but clean air through the carburetor into the cylinders, two big economy factors that add to the life of the car and cut maintenance costs. Note, too, the special six-ply high-speed balloon tires on all models.

All prices f. o. b. Detroit; tax extra.

The Chrysler Six

Pronounced as though spelled, Cry-sler

Chrysler engineers have done more than apply four-wheel brakes. They have designed the car to meet the torsional strain of front wheel brakes. That is one of the reasons why the front axle is of tubular design. In comparison with the conventional practice it shows these advantages: Twisting strains, 138% stronger; horizontal strains, 5 times stronger; up and down strains, 400% stronger; rigidity 34% greater.

The braking equipment is the Chrysler-Lockheed development of the hydraulic principle, guaranteeing automatic and permanent equalization. These four-wheel brakes and the Chrysler practice of mounting rear springs at right angles to the rear axle and close to and parallel to the wheels account in large measure for the superior driving and riding qualities of the car.

There is no disturbing side-sway under any conditions and you can take a turn at 50 miles an hour without danger or discomfort. Book yourself for a ride and be sure to have these superiorities demonstrated.

We are pleased to extend the convenience of time-payments. Ask about Chrysler's attractive plan.

Your Physician Orders Milk Among The First Foods After Prolonged Illness

---Why?

He knows milk is the food which is digested easily. He knows milk contains every essential food need for the upbuilding of bodies worn down by disease.

Now, isn't it logical to contend that if milk is the food first used after illness, that milk will be as powerful in maintaining the health of the person who is normal?

If you are in perfect health milk will help you keep yourself so. If you feel that you need a tonic, consult your physician, of course, but if you will start eating milk—chewing it as you would any other food—you will find that your physician's efforts to bring you back to robust health are materially aided.

And if you are in normal health now, start eating more milk than you have done and you will find that what you thought was perfection will be improved.

AND SEE THAT THE MILK YOU DRINK
IS PASTEURIZED—
IT IS YOUR PROTECTION
AGAINST THE MANY GERMS
WHICH MIGHT LURK IN MILK.

ODDS AND ENDS AND THINGS

By J. D. C.

The railroads are being compelled to spend a great deal of money to install automatic train control, but the statement is made that the abolition of grade crossings is a far more important measure. The number of persons whose lives might have been saved during the last five years by the use of automatic train control on all of the railroads in the United States is only about one-eighteenth of the number of persons whose lives are lost in grade-crossing accidents.

During the five years from 1919 to 1923 there had been 453 major train accidents, which were responsible for more than one-half of the deaths and injuries. Of these it was asserted that only 243 deaths would have been prevented by automatic train control.

In the same five years 9242 persons were killed and 26,222 persons were injured at grade crossings. The causualties to passengers in train accidents due to negligence of employees, it was stated, constitute one of the smallest causes of death or damage upon the railroads. An analysis of the statistics of 1922 shows that 85 persons were killed from this cause and 1622 were injured.

Figures compiled by the Immigration Bureau on the first two months operation of the new Restrictive Immigration Law show a virtual stoppage of immigration.

Compared with admissions for the first two months of the last fiscal year, when the old law was effective, authorization to enter the United States this year are inconsequential. All the quota immigration visas granted in July and August of this year do not equal one-fourthh the arrivals in the same period last year from Great Britain and Ireland!

The Immigration Bureau statistics show that from July 1 to August 30 this year 7,039 aliens were reported as authorized to come to this country. There were that many visas granted. It was pointed out that the figure does not mean that number of entries to the United States in the two months. The number of actual immigrants was probably smaller.

In the period from July 1 to Aug. 31, 1923, there were 119,501 aliens admitted. It was explained that under the new law not more than one-tenth of the annual quota is admissible in any one month, which is responsible in part for the curtailed immigration. Immigration authorities pointed out, however, that only Germany, Norway Great Britain, Ireland and Sweden have exhausted or come anywhere near exhausting their monthly allowances.

It is anticipated that immigration will grow in volume a month or so later, since there was delay in beginning operations under the new law.

Out of a quota of 34,007, Great Britain and Northern Ireland have obtained, according to the last reports, 1,554 immigrant visas. The largest number of visas have been granted in Germany the total being 1,868. Sweden has obtaned 1,493 and the Irish Free State, which has a seperate quota under the new law, 737. Italy, which had sent 14,716 immigrants to the United States in July and August last year, had received only twenty-seven immigrant visas at the time the last report was made to the Labor Department.

Under the old restrictive law one-fifth of the annual quota of immigrants could enter the country in a single month, and in many instances about two-fifths of the annual quota was exhausted by the end of August.

* * * *

What is the matter with the world, or that part of it within the confines of good old U. S. A. Clearfield county has the largest number of prisoners in her jail in the history of the county while from all over the land comes the same story.

The following is a sample:—

'Shocked by the large number of boys between sixteen and twenty-two brought before it on serious charges, with girls as young as thirteen as complaining witnesses, the August Grand Jury dwelt long on juvenile delinquency in a presentment to County Judge W. Bernard Vause in Brooklyn last week.

"While we are inclined to believe that in proportion to the growth of our population the increase of crime is not alarmingly large, it is surely appalling to find mere boys accused of banditry, robbery, assault and rape" the presentment declared.

'The saddest part of it is the fact that quite a number of the accused had previous records of arrest, conviction and term of jail. The sight of so many girls of tender age (some of them not over thirteen) appearing before us as complainants in these cases was shocking beyond words.

'We regret that we are not prepared to offer any suggestions for halting this continuous flow of vice and crime; but we feel it our duty to call the attention of our fellow citizens to these awful conditions, in the hope that those who are specially fitted may delve deeper into the causes and bring forward practical remedies for their abatement.'"

Big Comfortable Overstuffed Suites

You have seen the look of hominess and coziness that these big overstuffed give to the living rooms you have been in. Why not impart that same atmosphere to YOUR living room by having us make one for you?

All Clearfielders Should Visit Park Improvement

(Continued from Page One.)

of night into day at the big park. Batteries of flood lights, of 8000 candle power each, and many of them will be installed about the grounds at every vantage point, under the direction of expert lighting engineers, and when the juice is turned on the entire 35 acres enclosed within the Park fences will be flooded with brilliance and made light as day. This will make possible the presenting of a complete racing and track program at night, the first time such exhibition was made possible or even attempted at any county fair anywhere. But in this, as in many other distinctive fair entertainment features, the big Clearfield County Fair leads them all.

'Tis said the pace us Americans set is entirely too swift for a 24-hour day. That may be and you may well get that idea after a perusal of the entertainment program supplied by this year's fair, but this flood light innovation will go a long way toward solving the problem so far as this year's program is concerned and will take the advantage of old Father Time and his scythe by clipping several hours off these early September nights and adding just that much daylight in which to enjoy the entertainment and recreation at the Park.

The exhibits of farm stock and farm products will also eclipse previous years, while the chicken exhibit alone will be easily the equal of any "chicken show" ever attempted in this region.

A fine racing program for day and night will also feature the fair, more than 75 of the best horses traveling Pennsylvania this fall being entered to compete for the $4,000 in purses provided for.

The program includes almost everything imaginable in the way of entertainment and no patron can possibly go away disappointed.

Cane Juice Heavy

The sugar cane juice, constituting about 80 per cent of the weight of the cane, says Nature Magazine, is clarified by the addition of lime.

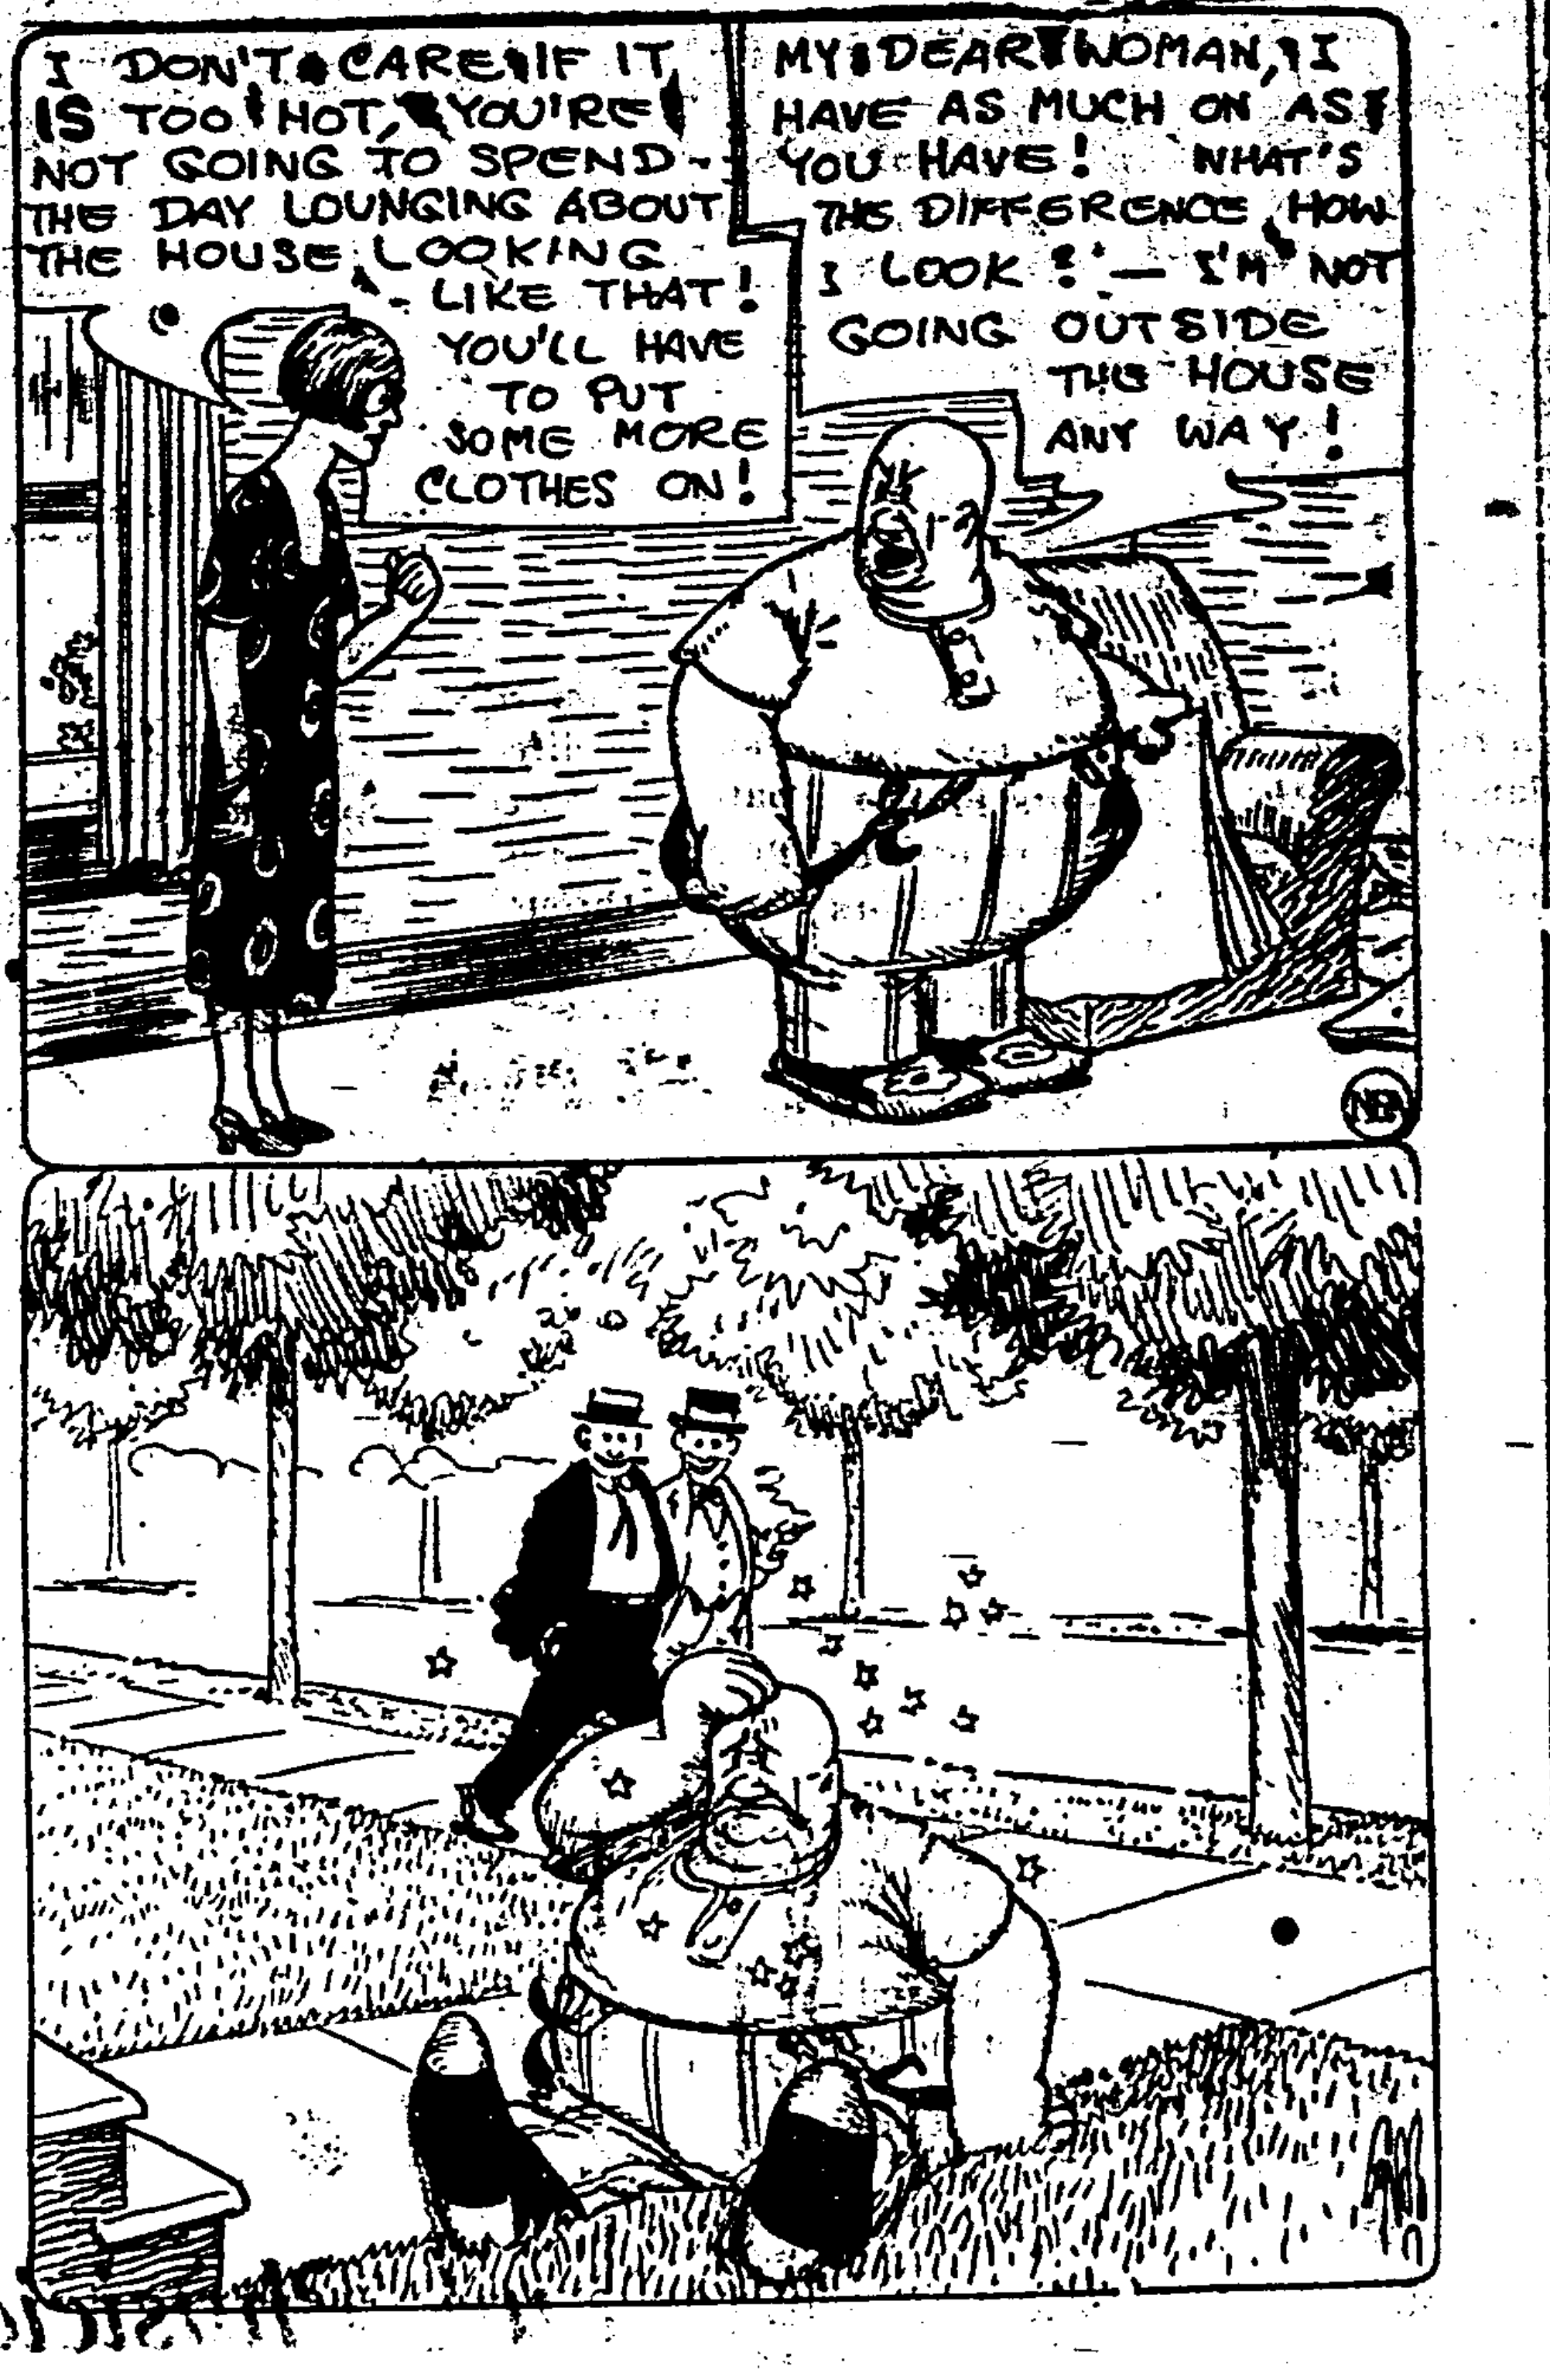
EVERETT TRUE By Condo



I DON'T CARE IF IT IS TOO HOT, YOU'RE NOT GOING TO SPEND THE DAY LOUNGING ABOUT THE HOUSE LOOKING LIKE THAT! YOU'LL HAVE TO PUT SOME MORE CLOTHES ON!
MY DEAR WOMAN, I HAVE AS MUCH ON AS YOU HAVE! WHAT'S THE DIFFERENCE HOW I LOOK! — I'M NOT GOING OUTSIDE THE HOUSE ANY WAY!

The Othor Paradise.

A man had a shrew for a wife. After his death she grew contrite and wondered whether she had been unduly harsh with him. She felt so uneasy about it that she decided to consult his spirit through a medium. "Is this you, John?" she inquired. "Yes, Jane." "John, are you happy where you are?" "Ah, yes, Jane." "Happier than when you were living with me?" "Much happier." There was a long pause while she pondered that. Then she said: "John, what sort of place is heaven?" "I don't know," said John. "I've never been there."

Permanent roads are a good investment —not an expense

Road Building Far Behind the Automobile

Millions now recognize the automobile as a necessity. It is no longer a luxury for the few. Sixty per cent of its use is for business.

Because of this the modern paved highway has become an economic necessity.

Yet although the mileage of Concrete Roads and Streets has been steadily increasing, our highway system today lags far behind the automobile. The great majority of our highways are as out of date as the single-track, narrow gauge railway of fifty years ago.

Such a condition not only seriously handicaps the progress of the automobile as a comfortable, profitable means of transportation, but also holds back commercial, industrial and agricultural advancement in practically every section of the country. It is costing taxpayers millions of dollars annually.

Highway building should be continued and enlarged upon.

Your highway authorities are ready to carry on their share of this great public work. But they must have your support. Tell them you are ready to invest in more and wider Concrete Highways now.

$369.00

3-PIECE SUITE COVERED WITH BEST GRADE JAQUARD CLOTH
Chair, Rocker and large Davenport. Special price—
$285.00

3-PIECE SUITE
Best grade Jacquard Cloth. Covered all over with same material—
$222.00

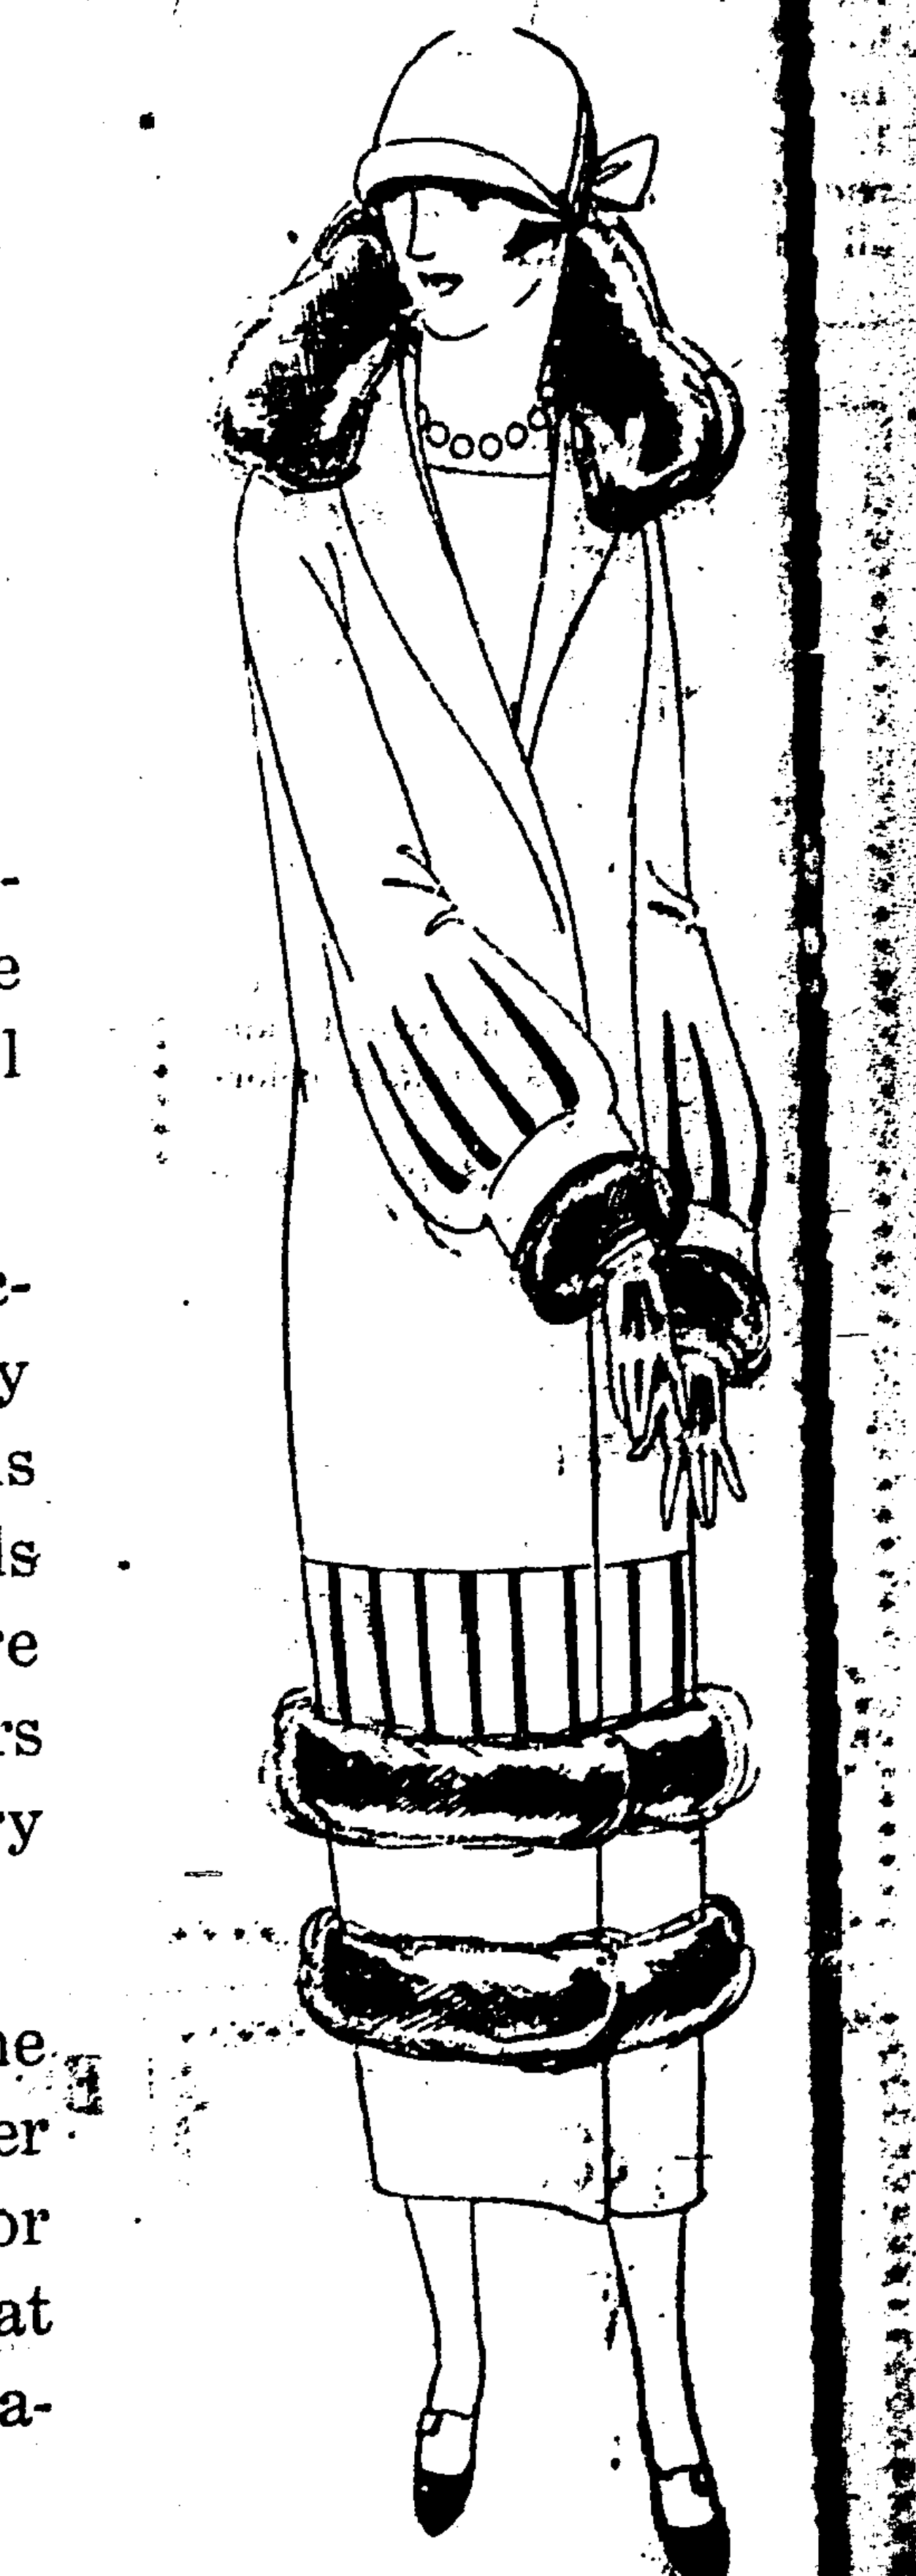
OTHER 3-PIECE OVERSTUFFED SUITES
Covered in Mohair, Velour and Tapestry—
$185.00 to $390.00

These Are Autumn Opening Days

In our ready-to-wear section the gorgeous showings for Fall are making the inside of the store in tune with the chill of out-of-doors.

Especially is this true of the coat section. Here we are showing coats of many kinds. There are coats of self materials all thru. There are coats of fine materials with contrasting collars and cuffs. There are coats of warm wool with fur collars and cuffs. In fact, there are coats of every description.

And as usual, we are just ahead of the season. When the mercury dropped after yesterday's storm, you find us ready for you with a charming coat and one that will meet with your ideas of style, material and price.



Leitzinger Bros.

AWAY WITH ONE MAN JURIES

Clarence Darrow, shrewd old fox that he is in defeating the ends of justice and making of our criminal laws a farce through preying on the sympathies and emotions of men, judges included, played his only card when he decided to put up to Judge Caverly the question of deciding whether Leopold and Loeb should have their lives. Darrow won. Leopold and Loeb won. No good purpose is served. Murderers, who are all cowards, and fear nothing but the hemp about their necks, win.

We are ready to subscribe to the belief expressed by Judge Caverly that these boys are "twisted" mentally. What murderer is not? We are ready to believe also that they are not insane in the common sense of the word. We are all more or less "twisted" mentally, especially on certain and various subjects, but this state of mentality does not indicate a disordered or diseased mind, neither does it release us from responsibility for our acts.

The voluminous evidence in the case just closed served to emphasize the fact that the Loeb-Leopold mentality was of their own making and through it all there was a vein of sham and mockery which alienated any hope of sympathy that existed in the public mind.

Looking at the sentence from another angle, is it not true that the theory of the death penalty is not for punishment alone but for the double purpose of ridding society of a criminal whose progeny might have disastrous effect on humanity in general and as a deterrent of crime? Of what use can such as Leopold and Loeb be to society? If a life or lives are to be taken in order to deter others from taking a life the world can well afford to use Leopold and Loeb as the object lessons.

Bad as our experience has been with certain twelve men juries, that system stands out as a better safeguard to society than the Illinois system which puts all the responsibility upon the shoulders of one man and then permits a dozen highly paid emotion producers to work on his weaknesses.

The sentence will not meet with public approval but the same public will rejoice with us that such a gruesome, shocking episode is finally over and will disappear within a day or two from the front pages of our boasted civilization.

PROTECT THESE FARMERS

Complaint having been made that farms in this section are being raided by thieving autoists, the amazing story is spread that local authorities are powerless to afford relief to the victims. It is impossible for the laity to recognize any difference between stealing fruit and vegetables and stealing other forms of property. There are penalties for horse stealing and for the theft of automobiles, and the trespass notices posted on farms are reminders that, in line with common sense, there also are laws against the raiding of farms. Yet we hear from some quarters now that the taking of growing vegetables does not constitute a charge of larceny; that the growing plant or vine is part of the real estate and such property cannot be stolen. The taking of vegetables, this view continues, constitutes a violation of the trespass law only and the owner must learn the identity of the thieves and proceed in a civil action before a justice of the peace. Limiting the law in this way is not likely to make a good impression. The common belief will continue that the statutes dealing with crime contemplate full protection for farmers of the state same as any other citizens.

The manner in which the orchards and gardens of some farmers have been despoiled by thieves traveling in autos is an outrage, and it is incumbent upon the public authorities to do their part to put a stop to it and bring the guilty to punishment. A constable should be as ready to operate against a fruit thief as against any other. Meanwhile the farmers are reported to be preparing to shoot the raiders. They emphasize that they have the same right to protect their property as others have to guard theirs. This makes it imperative that the law do something if it would avoid a situation in which lives may be taken.

No police officer can be permitted to give the impression that he is powerless to aid the citizenry against any certain class of thieves.

Progress Editorials for Women

A TIME TO LAUGH

By FLORENCE DAVIES

A New York University professor, explaining why it makes the average human laugh to see a fellow being slip on the ice or plung headlong down a flight of steps, is quoted as saying, "We always laugh at what we don't understand."

Maybe laughter is first aid to ignorance. We have thought that when an outburst of high-pitched, nervous cackling greeted some tense situation—by the author's intention far from humorous—on the stage.

But what if we took the professor literally? Let's see: We don't understand, in everyday English we can't see for the life of us, why Baby is so restless and widewake. There are no pins, no colic. He can't be hungry or thirsty, and a bath and fresh talcum and wee, scented garments, have always before made him cool and aimable.

Do we laugh at this thing that we don't understand? By no means. We go on tensing our own nerves and muscles, wondering if anything can be really the matter, fretting ourselves into a worse state of fidgets than Master Baby's.

Maybe if we did laugh, actually, out loud, as though we saw something ridiculous, the small tyrant would hush his own lamenting voice to see what queer thing Mother was up to, and in the end join in the chorus of laughter. We saw that tried once with a cross youngster and it really worked like a charm.

Or Mrs. Knag "can't understand" why her Billy gets such absurdly poor marks at school. She scolds the boy—not a "good down right talking to," but the complaining kind of scolding for which the Knag family is noted—but it only seems to make matters worse.

If she laughed good naturedly, now—you never can tell. Maybe a bit of ridicule would spur Billy's pride.

More seriously, if it's a case of a wife not understanding what her husband sees in that flighty little Mrs. X, across the street, a laugh is better than quarts of tears or a bushel of hard words. On the whole, while the professor didn't mean his remarks to be taken this way at all, there maybe many times in the daily grind when laughing at what we don't understand would oil the bearings and relieve the friction.

BETTER STEEL REPORTS

New York, Sept. 10 (INS.)—Unfilled tonnage of the United States steel corporation increased 102,505 tons between July 31 and August 31, according to the monthly statement of the corporation, issued today.

Unfilled tonnage on August 31, amounted to 3,239,577 tons against 3,187,072 on July 31 last and 3,262,505 on June 30. On Aug. 31, 1923, the corporation reported unfilled orders of 5,414,663 tons.

STOCK PRICES LOW AT CLOSING

The market failed to rally in the last hour and closing prices were generally the lowest of the day. Oil stocks lost most of their early gains with the exception of Marland, which continued to lead the movement in oil shares. General Asphalt lost 2 points at 39⅝, on announcement that the company plans to issue $5,000,000 in new 15-year six per cent debentures at 95½. Colo Fuel sold above 40 in this period for a gain of 2 points. Coppers were inactive, sugars strong, independent steels reactionary, with Crucible leading the decline down 2 points at 54¼.

GRAIN CLOSES IRREGULAR

Chicago, Sept. 10. (INS.)—The grain market was irregular at the close today. Wheat finished ¾ higher, corn closed ½al cent off, and oats finished unchanged ⅛ off.

The government crop report, generally considered bearish on wheat, was apparently ignored by the market but it was generally felt by traders that today's strength was artificial and could not be maintained for any length of time.

The break in corn was regarded as natural and there was considerable speculative buying as prices sagged.

Oats also got speculative support as they sold off during the day.

Buoy's Long Voyage.

A whistling buoy lost from the St. Lawrence river a year ago has been washed ashore on one of the Scilly Islands, just off the southwest coast of England, 3,000 miles from its starting point. The only injury was found to be confined to the gaslight case, which had been wrenched from the top of the buoy.

Must Have Living Prey

A snake would starve to death rather than eat anything but living prey.

To a Hair.

Patron—"I want the part exactly in the middle." Barber—"Yes, sir! Yes, sir! And where, sir, would you have me place the one hair that's left over?"

Mass. Republicans Are Satisfied With Gillett

(Continued from Page One)

Boston, Sept. 10. (INS.)—The only important contest in the Democratic primary was the selection of a candidate for lieutenant governor. John J Cummings of Boston was leading by an overwhelming plurality over his two opponents as compilation of the votes was being completed.

United States Senator David I. Walsh was renominated without opposition and Mayor James M. Curley of Boston was named for governor by the Democrats without a contest.

Returns from 293 of the 534 cities and towns, including Boston, gave Fuller 111,751, and State Treasurer James J. Jackson, 86,362.

Frederick H. Gillett received 89,455; Louis A. Coolidge, 54,516, and Frederick W. Dallinger 45,206 for the Republican nomination for United States Senator.

Salary Grab of 1873

The "salary grab" by members of congress in 1873 stirred up the whole country. Near the end of the term an increase in salary was voted congressmen, and the outgoing congress made the bill retroactive.

Silly to Live on Hope

He seldom lives frugally who lives by chance. Hope is always liberal, and they that trust her promise make little scruple of reveling today on the profits of tomorrow.—Johnson.

They Must Have Water

Small and delicate shrimp cannot live out of the water, says Nature Magazine. If they should be thrown on the beach by some playful wave, the next flood tide will find them dead.

BUSINESS REVIVAL
OH THERE'S SUNSHINE, BEAUTIFUL SUNSHINE, THERE IS SUNSHINE IN MY SOUL TODAY —
CITY MAN
FARMER

ANOTHER BEAUTIFUL CROMAR FLOORED OFFICE

The occupant of the office illustrated is treasurer of one of the world's largest metal building material companies. He wrote us "Cromar was quickly laid without debris or confusion. It is substantial, and beautiful, and has completely transformed the appearance of my private office."

(Writer's name on request)

A complete new oak floor in a day

The lasting, dignified beauty of CROMAR Oak Floors in a home expresses good taste. In an office, such floors are not only good taste, but good business.

The office floor must stand much harder service. It is for that very reason that CROMAR is so successful for office use.

This durability feature alone might determine your flooring choice. But there are others: CROMAR is entirely finished by machinery at the factory. It reaches you ready to lay—filled, varnished and waxed—and the same day, when the last nail is driven, your new floor is ready for use. You are spared expensive, disrupting delays and the piercing noises attendant to the scraping or sand-papering of ordinary hardwood floors, preparatory to hand finishing them.

Ask us for the names of local CROMAR dealers who will show you CROMAR Floors and quote prices. We'll also send samples and booklets about CROMAR and its manufacture.

Laid and used the same day

Curwensville's Own Column

Word has been received in Curwensville of the marriage of Miss Elizabeth Lantz, a daughter of Rev. Max Lantz, a former pastor of the M. E. Church, the solemnization of the wedding being performed in Altoona last Saturday. The bride has a number of warm young lady friends in this place who will rejoice in her happiness of a prolonged married life. Miss Lantz is a sister of Richard T. Lantz of Curwensville.

Mrs. Daniel Newcomer, who has been staying some months in Virginia with a daughter, has returned to Curwensville and is now at the home of another daughter, Mrs. William A. Dale, where she will probably spend the winter months.

Borough Council failed to hold its regular September session so far. A meeting was called for Monday night but as only three of the members of that body responded, not making a lawful quorum, nothing was done in the way of business. There will be no session now until the 17th, unless President Ralph Hess should call an extra session.

According to Saturday's Altoona Mirror it is noted that Prof. H. J. Barnett a former principal of Curwensville schools, now holding the same responsible position in Hollidaysburg public schools, has received an advance of $300 in salary. Heretofore he was paid $2700. Curwensville people are interested in the welfare of the professor, as he married one of the town's brightest youny ladies in the person of Miss Mary Reesman, who for a number of years was one of the instructors in our schools. Congratulations, professor.

Mike Cassidy is continually adding comforts and conveniences for tourists and campers who visit his Wildwood Park along the state highway between Stronach and Bridgeport. He has had his buildings wired for electric lights, and added two large automatic gas tanks. Within the five months past over two thousand persons have registered as visitors, and by actual count Cassidy has tabbed cars from every state in the Union.

The new Anderson creek concrete bridge will be completed and receive the finishing touches today. It will be opened to travel about the middle of October, or perhaps sooner. The [illegible]-way will be open next week, and then the temporary foot walk will be removed and the lumber used in other [illegible] work. A general inspection of the new bridge will be made by Council and Commissioners within a few days.

All of the coal mines along the river between Curwensville and Mahaffey are getting into their old stride of operation. The West Branch and M. and M. companies are working almost full time, and the Bowers mine near Lumber City is loading from 8 to 12 cars per week.

Frank Isban made a speech on the corner of State and Filbert streets Monday evening. His talk was chiefly along the line of La Follette and socialism which did not seem to interest his small audience to any great extent.

Howard Thompson went over to Bellefonte today to attend a directors' meeting at the penitentiary, going afterward to Huntingdon on business.

Miss Marjorie Murray will leave in a few days for Williamsport, where she will enter as a winter student at a commercial school.

Miss Jessie Pifer has gone up into the "Irish settlement," Penn township, where she has been engaged to teach one of the rural schools.

PENNSY-GRAMS

Pittsburgh.—Mrs. J. J. Newman, mother of Pauline J. Newman, 16, who has been missing for more than a week, has offered $100 for return of her daughter. Nothing has been heard from the high school student since she left September 3.

Pittsburgh.—Hotel managers, cabaret proprietors and owners of all other kinds of "eat" places are checking up this morning, the knives, forks, spoons and other silverware returned to them last night by the service superintendent of a hotel here. The 2,000 pieces of "silvered garbage" were recovered by the superintendent who offerd a bonus to garbage collectors to keep an eye on garbage cans for the eating utensils.

Philadelphia—An injunction may be sought by the city of Philadelphia to prevent the Rapid Transit Company from putting into effect, the temporary fare increase granted it by the State Public Service Commission.

Philadelphia—Police last night arrested John Barr, 33, charging him with being the leader of a bandit gang which has stolen nearly $300,000 in money and valuables during the past four years. He was arrested on evidence supplied by Peter Ott, claims to be a former member of now in the Eastern Penitentiary, who Barr's gang.

Greensburg—Investigation is being made here today to determine the cause of the fire that destroyed the warehouse of Wilson and Co., Meat Packers yesterday. The loss was estimated at $50,000.

Youthful Media Mother Shoots Foster Brother Who Attempts Attack

Media, Pa., Sept. 10. (INS.)—Because she said he attempted to attack her, Janet Smalley, 17, shot and seriously wounded her foster-brother, Eugene Herman, at their home in Erdenheim, a suburb, last night. They were alone in the house at the time.

The girl told police Herman threw her the revolver and shouted "Shoot me," after she had repulsed him once. The pistol landed on the crib of her three-year-old baby and when he tried to approach her again, Miss Smalley said she snatches it up and fired. She then telephoned the police who captured Herman.

The man was adopted by the Smalley family when a youngster. Miss Smalley was married but has used her maiden name since the death of her husband, a world war veteran.

The Airveyor.

The "airveyor" is a pipe-line system which conveys grain from an elevator to a vessel at the water front without the use of the familiar belting. Operated by a hurricane of wind forced through a pipe by giant fans, it will load 4,000 bushels an hour.

Joy Reigns Supreme

(Continued From Page One.)

Houtzdale and her environs will be on the "hard road" to every one of the five improved routes across the State and everywhere else for that matter, which is the cause of so much joy among the Houtzdalers.

Didn't Waste Money On Food

"The recent campaign against wastefulness in eating did not affect me much as I haven't been able to eat anything but toast and tea for the past five years. Even that would create gas and cause me distress. My weight was down to eighty-four pounds and my complexion muddy. I had frequent pains in the region of my appendix. I am glad I did not listen to an operation, as Mayr's Wonderful Remedy has made a new woman of me." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

At all druggists.

The information thus derived is very important to the agricultural development of the state, as it will mean accurate information that is pretty hard to obtain otherwise. It will be especially beneficial to the farmers, and in no ways a detriment to him. It will mean additional work to the assessor, and can be made a great deal easier for the assessor, saving both his time and that of the farmer if each farmer would clip this article from his paper and fill it in to the best of his ability, so that when the assessor comes around he can copy the same off with very little loss of time. The information derived, according to Secretary of Agriculture Willits, of Harrisburg, is to be treated as strictly confidential. The filled in blanks will be returned to the Secretary of Agriculture and and will have no connection with any taxation measures. Similar laws are now in operation in seventeen other agricultural states.

Fall Opening Days

Today we threw open our first real Fall opening. That our selections of the things you will want for your Fall wardrobe are really wonderful, was borne out by the exclamations of enthusiasm and congratulations which were showered on us.

COATS
SUITS
FROCKS

Each in its own department, each showing the very best of the new Fall modes and materials, we may say with pardonable pride that the showing is really out of the ordinary.

If you couldn't get in today, make it a point to come in tomorrow and enjoy seeing the delightful showing.

Pres. Commends the Men Who Bring Aerial Glory To Good Old U. S. First

Washington, Sept. 10.—The U. S. Army round the world flyers will stay over in Washington for the Defense Day activities on Friday, leaving for Dayton and the west on Saturday, Secretary of War Weeks announced today.

By LUTHER A. HUSTON
I. N. S. Staff Correspondent

Washington, Sept. 10.—The United States army round the world flyers were up with the sun this morning.

War department automobiles awaited them at the New Willard Hotel and they were carried to Bolling Field to inspect the airplanes that have carried them almost all the way around the globe and to make preparations for their hop off tomorrow to Dayton.

Only two of the ships were at Bolling Field this morning—the Chicago, of Lieutenant Smith and Lieutenant Leslie P. Arnold and the Boston of Lieut. Leigh Wade and Lieut. Henry Ogden.

Lieut. Erik Nelson's New Orleans is parked between Baltimore and Washington. Nelson having forced down near Half Thorpe, Maryland, by stripping timing gears. Lieut. John Harding, Jr., was left with the New Orleans during the night, and a new engine is to be sent out today from Bolling Field so that Nelson can fly the ship into Washington this afternoon.

Lt. Smith said this morning that he thought everything would be in readiness for the flyers to hop off from Washington Thursday morning, arriving in Dayton that afternoon and in Chicago on Friday afternoon. The tentative schedule now being followed will bring the circumnavigation of the globe to a conclusion about Sept. 20, at Seattle—ten days from today. Stops will be made after Chicago, at St. Joseph, Mo.; Cheyenne, Salt Lake City and Sacramento.

In a formal statement of welcome to the flyers, President Coolidge said that a "new record of achievement had been made in the past six months in the domain of aviation."

"It has been your skill, your perserverance, your courage that has brought this great honor to our country. In what is probably the greatest opportunity for future scientific development of transportation your enterprise has made America first. I trust the appreciation of your countrymen will be sufficient so that in this field America always will be kept first."

SPECIAL SERVICE AT LUTHERAN CHURCH TONIGHT

The "Quiet Hour" at St. John's Lutheran church will be of unusual interest this evening. The message will be brought by Henry Latshaw, one of our students at Gettysburg College. Henry will have a helpful message and we want you to hear that message. Show your interest in this young man by being present. A special message and a special offering for a special cause. Come and bring a friend.

Taking Her Back.

After the young thing at the party had concluded her second encore the old lady leaned toward her and said: "Thank you so much for your songs, my dear. They took me back to childhood days on my father's farm. There were times, when you sang, that I could shut my eyes and fairly hear the old front gate creaking in the wind."

Wives vs. Husbands.

A well-known novelist said to the bride at a wedding breakfast: "Remember, my dear young lady, as the years pass by and the burden grows heavier—remember that wives were made to suffer and husbands to be suffered."—Boston Transcript.

That Living Room Suite Can Be Made To Look Like New

Just let us demonstrate to you that the living room suite you thought was "done for" can be made to look like new. A new covering, some real upholstering work and you have practically a new suite.

Easy—Quick—Sure

That's the way of a Progress classified ad!

Easy—because you can give your ad over the phone to a trained ad-taker in a few minutes' time.

Quick—because the ad will tell Clearfield about your proposition as soon as the paper is off the press.

Sure—because among the hundreds of daily readers of the Progress classified section, there is bound to be interest taken in your ad.

And in addition to all this, the cost of a hard-working Progress ad is so small that it isn't to be considered beside the results it gets.

When you want to reach the people of Clearfield—the buyers, the workers, the employers, the renters—call H. & C. 176 and Bell 47 and ask for an ad-taker!

AN ORDINANCE
Authorizing the extension of the sewer on West Cherry Street, in the Second Ward of the Borough of Clearfield, Pennsylvania, in a Westerly direction from its present terminus on the West Side of the Clearfield and Mahoning Railroad along the line between the lot of Gearhart Knitting Machine Company and the lot of Margaret Stage to Gulich Avenue.

Be it ordained by the Council of the Borough of Clearfield in Council regularly assembled, and it is hereby ordained and enacted by authority of the same:

Section 1. That the sewer on West Cherry Street in the Second Ward of the Borough of Clearfield be extended from its present terminus on the West Side of the Clearfield and Mahoning Railroad in a Westerly direction along the line between the lot of Gearhart Knitting Machine Company and the lot of Margaret Stage to Gulich Avenue, and that said extension be constructed of terrar cotta pipe not less than twenty-four inches in diameter.

Section 2. The Sewer Committee of Council is hereby authorized and empowered to lay out, build and construct said sewer under the direction and supervision of the Borough Engineer, and when said sewer is constructed it shall become part of one of the public sewers of said Borough and shall be subject to all the rules and regulations for the control of the sewerage system of the Borough of Clearfield.

Ordained and enacted this fourth day of September, A. D. 1924.

GEORGE M. ROSSER,
President of Clearfield Boro Council.
Attest.
J. D. CONNELLY, Secretary.
Examined and approved this ninth day of September, A. D. 1924.
FRANK KITTELBERGER,
9|10|ch Burgess.

May Print Sounds.

An English scientist predicts the early perfection of a machine that will be able to print sounds. The apparatus will be a cross between a dictating machine and a linotype machine, and its success will depend upon the fact that every letter has a different wave form.

DOPING OUT NEXT PENNA. GOVERNOR

(Continued from Page One)

backing of powerful political influences in Pennsylvania.

Two other men are said to have senatorial ambitions. One is Congressman William S. Vare, head of the powerful Philadelphia machine, who became rather incensed with Governor Sproul in 1921 when he was not appointed to the Penrose vacancy. Vare is said to be willing to be a candidate in 1926.

The other is Governor Gifford Pinchot. The Pennsylvania Governor is said to be laying his political lines for entrance into the Senate fight.

Two years ago the Republican organization in Pennsylvania went to the rocks because it had too many candidates for Governor who persisted in staying in the race until the last minute. The late withdrawal of the candidates made a harmonius organization impossible and Governor Pinchot won the nomination.

Two years hence the Organization may face a similar fate. Already candidates for the gubernatorial nomination are appearing. Friends of Secretary of Labor James J. Davis have been boosting him for the nomination. In Pittsburg former Mayors E. V. Babcock and Joseph F. Armstrong are mentioned.

Former State Banking Commissioner John T. Fisher, who withdrew as candidate two years ago, still appears to have the gubernatorial bee, while former Lieutenant Governor E. E. Beidleman, who also withdrew two years ago, may shy his castor into the ring again.

Others mentioned include Cyrus E. Wood, recent ambassador to Japan; T. Henry Walnut, State Workmen's Compensation chairman; Mayor W. Freeland Kendrick and former Judge John M. Patterson, of Philadelphia, and Secretary of the State Clyde M. King.

Among active party workers a strong sentiment is developing for W. Harry Baker Republica State Chairman and for many years secretary of State Senate and of the Republican State Committee. Baker has never been an aspirant for office, but if he became a candidate would do more than any other man to solidify the organization.

Give Him Time.

Ethel—"He doesn't seem to take our engagement a bit seriously." Grace—"Jack always was reckless. But never mind, dear; he probably will later on."—St. Louis Dispatch.

Favor American Balloons

American toy balloons are practically the only ones sold in Great Britain, because of the varieties of colors furnished by manufacturers of this country.

Scaring Evil Spirits

In many parts of South America wooden crosses are still erected on the outskirts of the towns and villages to frighten away evil spirits.

Improvement.

The rowing coach of Blank college had a very sharp tongue. A member of the crew who had got into it through favoritism said to him: "Do you think it would improve my style if I were to acquire a fast stroke?" "It would improve the crew," replied the coach, "if you got a lightning stroke."

Dentistry [illegible]

Records are incomplete, but it is known that the Romans used false teeth and possibly bridge work. The filling of teeth is of later date. A dental bibliography written in 15[illegible] ing the date of the introduction of [illegible] branch of the profession as about [illegible] A. D.

Impeachment Trials

The chief justice of the Supreme court presides at impeachment trials only when the President is impeached, but in all other cases of federal impeachment (including impeachment of the chief justice) the vice president of United States presides.

Developing Character

The palm tree grows beneath a ponderous weight, and even so the character of man. The petty pangs of small daily cares have often bent the character of men, but great misfortunes seldom.—Kossuth.

Flower Stores Food

Jack-in-the-Pulpit is a canny chap, since he does not depend entirely on seeds to produce him, says Nature Magazine. During the summer he is very busy manufacturing food. The following season the food that is stored in the corm underground develops new shoots.

Magnets Lift Tools

Nail sets and other small tools, when they drop between studdings or into other places where it is impossible to get to them, can be found and lifted out by lowering a magnet into such places with a cord. Hand axes and hammers can also be lifted in the same way with a strong magnet.

Oldest Butterfly Collection

The oldest classified collection of butterflies and insects in the world is that possessed by the Museum of Natural History in London. A recent examination of the collection shows that, though more than 150 years old, the fragile exhibits are perfect.

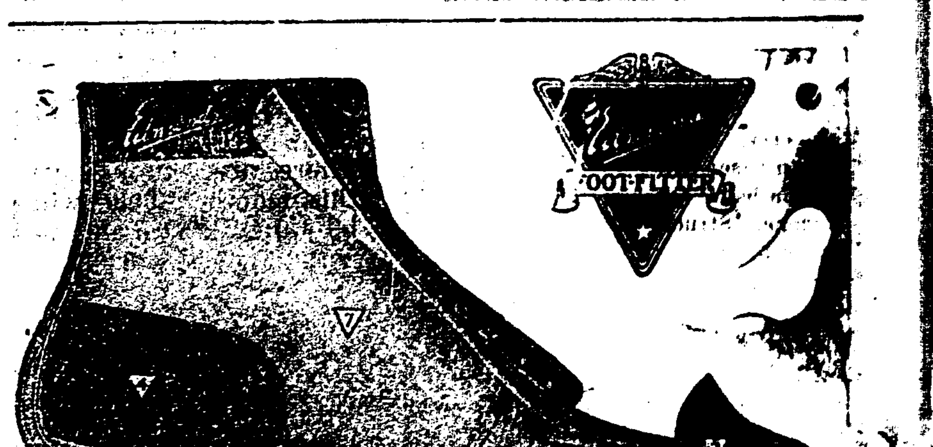
JAUNTY LITTLE
HATS
Underpriced

I am showing some of the jauntiest little hats for in-between wear that I have ever shown and better values cannot be had anywhere.

There are plenty of those little close-fitting turbans and several other styles.

Most places you'd pay $5 or $7.50 for them. I'm selling them at
$3.75 and $5.50

Daisy Thorn
Johnson



Seven Points of Supremacy

1. The sole leather used in "FOOT-FITTERS" is of the best quality obtainable. Even the insoles are cut from standard outsole leather.
2. "FOOT-FITTERS" are the only shoes in the world having full length vamps and sole leather box toes. This feature prevents ripping at the tip and makes a smooth outer and inner surface.
3. The insoles are shoulder channelled so that they fit tightly against the outsole. There is no need of room for a cork filler. A small piece of duck is used to prevent squeaking.
4. The Calfskin inside counter pocket is of great value, for it saves the wear on the socks. There is no rough surface to rub against.
5. "FOOT-FITTER" heels are ⅛-inch longer than generally used. They give additional support to the arch and increase the comfort and wear of the shoe.
6. The vamp is reinforced with 8-oz. duck. This absorbs the moisture from the foot. This keeps the vamp from cracking and holds the shoe in shape.
7. Edmonds' "FOOT-FITTER" shoes are called "FOOT-FITTERS" because they fit the foot snugly. Built on combination lasts they support the foot like a doctor's bandage—"FOOT-FITTERS" give Comfort, Service and Appearance.

SPORTS

LAST NIGHT'S FIGHTS

At Boston.—Kid Norfolk, New York, outpointed Battling McCreary, Boston, ten rounds. Lew Paluso, Salt Lake City, won judge's decision over Billy Murphy, Lowell, Mass.

Columbus, Ohio, Sept. 10. (INS.)—By means of a smash to the head with his right, Young Stribling, Georgia light heavyweight, knocked out Glen Clickner, 30, Zanesville, in the second round here last night.

Although Clickner managed to hit Stribling two or three times, the blows seemingly made no impression on the Georgian.

TAGGING ALL THE BASES

The Yanks made hay while the sun was not shining for Washington and gained half a game on the Senators by nosing out the Red Sox in the ninth 5 to 4. Joe Bush starred for the second day in succession by driving in the winning runs with a pinch double.

A loud explosion was heard in St. Louis as the Pirates flivvered sadly, the Cards taking two games, 7 to 4 and 6 to 4. Sothoron and Stuart were poison to the Corsairs.

The Tigers stretched their winning streak to seven by trimming the White Sox, 7 to 3. The Cobb men are now four and one-half games behind the Senators.

The Cubs crawled a game closer to the first division, defeating the Reds 4 to 3 on O'Farrell's homer. Alexander failed to whiff a batter, but kept Cincinnati's hits scattered.

KARTHAUS BEATS GRASSFLAT

Friday afternoon the Karthaus base ball team handed another defeat to the strong Grassflat Club who were reinforced by several of the Philipsburg C. & C. League players. The game was played at Karthaus after a heavy rain but despite this fact a fast game was staged and Grassflat was defeated 3 to 2 in seven innings.

This did not quite satisfy the Grassflat players who are looking for revenge and another game. They are a good ball club but not quite equal to the fast all-around work of the Karthaus players who will play them at either Snowshoe or Philipsburg to prove that they are their superiors.

Following is the box score:

Grassflat

	AB.	R.	H.	A.	E
Crago, 2b	3	0	0	4	0
Schultz, 3b	3	1	1	1	0
Nagle c	3	1	2	2	0
Anderson, lf	3	0	1	0	0
McHigh, ss	3	0	2	1	0
Johnson, 1b	3	0	0	0	2
Lawrence, cf	3	0	0	0	0
B. Crago, rf	3	0	0	0	0
Force p	2	0	0	2	0
Totals	26	2	6	10	2

Karthaus

	AR.	R.	H.	A.	E.
Cowdrick, 2b	3	0	1	4	0
Viehderfer, 3b	3	0	2	0	0
Rees, c	3	0	1	0	0
R. Fauver, lf	3	0	2	1	0
Renaud, ss	3	1	0	5	0
Priel, 1b	3	0	0	2	1
Lansberry, cf	2	1	1	0	0
Coudriet, rf	2	1	1	0	0
Zindel, p	2	0	0	0	0
Totals	24	3	8	12	1

Two-base hits: Anderson, Cowdrick, Lansberry. Sacrifices: Schultz, Briel. Left on base: Grassflat 3; Karthaus 3. Base on balls: Off Force none, of Fauver none. Struck out by Force 4; by Fauver 5. Earned runs: Grassflat 2; Karthaus 3. Double plays: Crago to McHigh to Johnson; Reynaud to Cowdrick to Lansberry. Umpire S. Rees. Time: 1 hour 20 minutes.

ALL WORN OUT?

So Was Mrs. Bruner Who Tells Her Experience.

Are you tired all the time; worn-out night and day? Does your back ache as if it would break? Do you suffer dizziness, headaches, rheumatic twinges or distressing urinary disorders? You have good cause then to be alarmed about your kidneys. Do as many of your townfolk recommend. Use Doan's Pills—a stimulant diuretic to the kidneys. This Clearfield case is convincing:

Mrs. M. M. Bruner, 112 W. Third Ave., says: "My kidneys got out of order and acted too frequently. There was a dull, bearing down pain in my back which was worse when I stooped because I got a sharp kink. It was hard to straighten. Mornings my back was lame and sore. I was bothered with dizzy spells, too. Doan's Pills stopped the backache and relieved me of the trouble."

60c, at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

LISCHERELLA DEFEATS BLAKE SHUGARTS IN HORSE SHOE PITCHING

James Lischerella found his form at last and succeeded in winning his match from Blake Shugarts in the Contest for the Championship of Clearfield's Horse Shoe Pitching enthusiasts. The score.

	Pts	Ring	Dbls	Shoes
B. Shugarts	25	3		58
Lischerella	50	15	4	48

The heavy rains postponed the game scheduled for last evening and one of these matches will be played off Thursday night at 6:30, at which time the contests will be between the following:

E. Schiefer and W. Witherow.

L. Cowdrick and J. Lischerella.

The men who are interested in horse shoe pitching are urged to practice every evening at the community courts in Witmer Park, the lights being turned on at dusk and the shoes can be thrown until nine o'clock.

FIRPO 6 TO FAVORITE

New York, Sept. 10. (INS.)—It was estimated today by a firm of local betting commissioners that wagers totalling more than $300,000 would be made on the outcome of the Wills-Firpo bout at Jersey City tomorrow night. More than $150,000 was placed yesterday at odds of 6 to 5, in Firpo's favor, the firm estimated.

HIGH FOOTBALL TEAM QUICKLY GETTING IN SHAPE

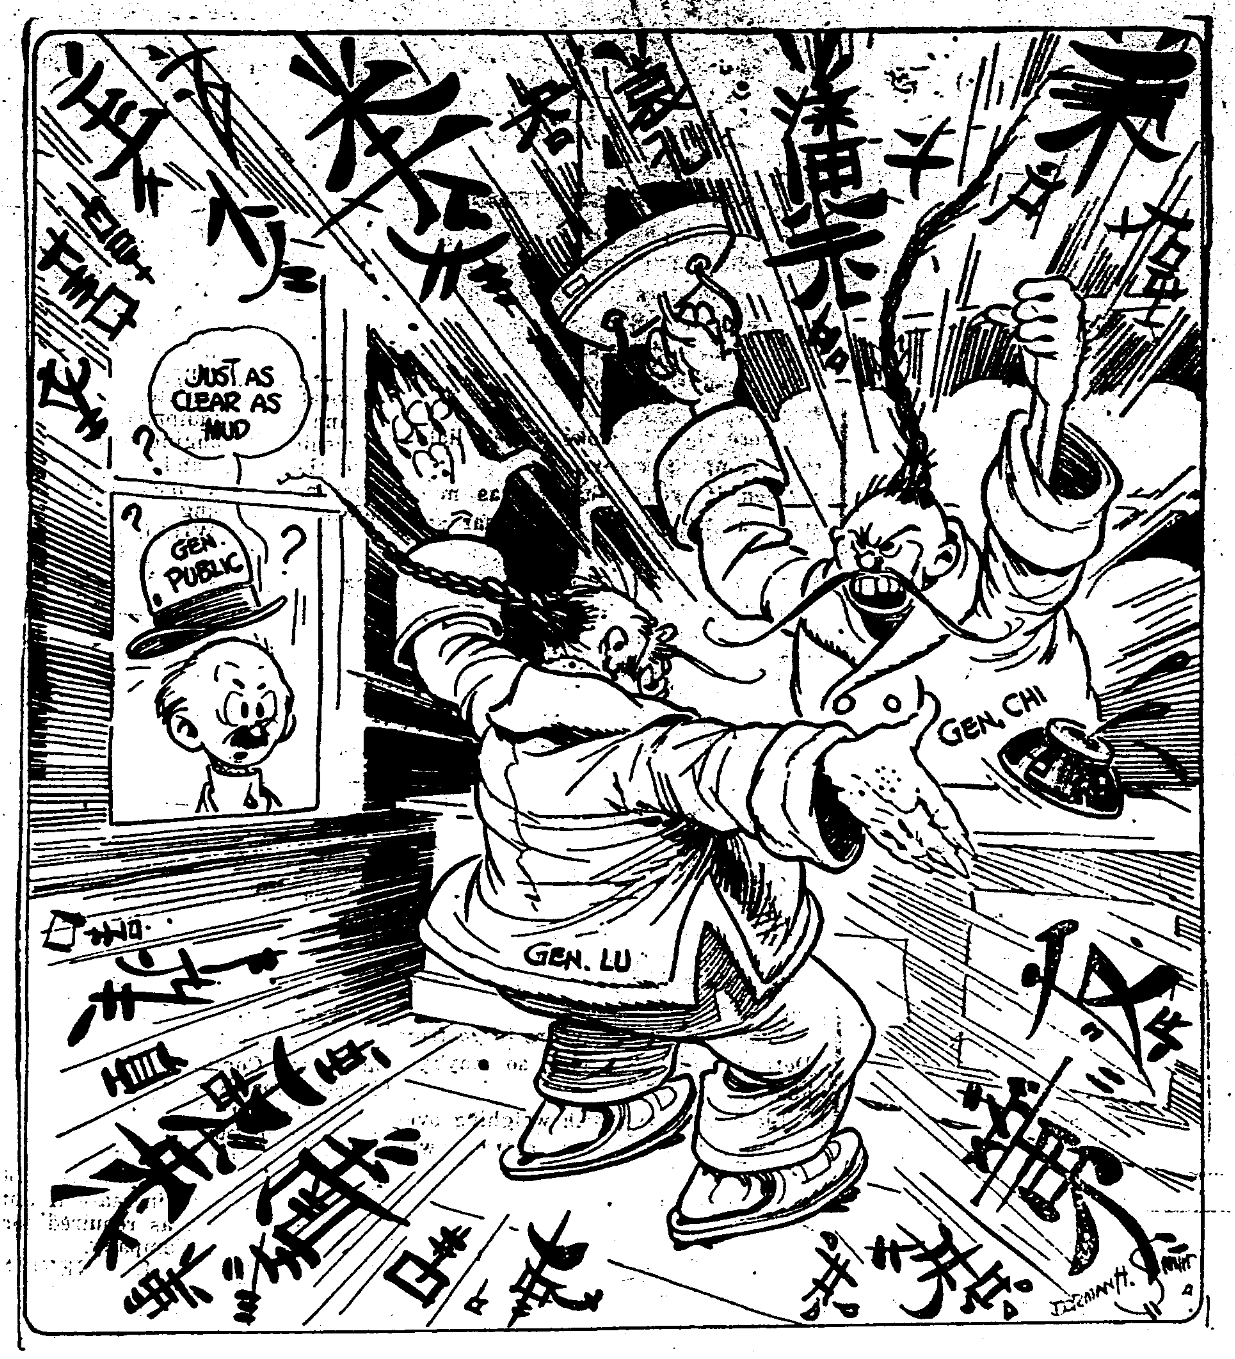
Clearfield High's football squad is commencing to bear down on their advanced work, and altho it is nearly three weeks before the initial struggle the Red and Black prospects look good. Coach Reed has picked his varsity team ann is sending them thru in fine style while Coach Steele is putting his strong little second team 'over the jumps" like speed.

The "big uns" show a little more weight than last year's first team, and last season's experiences have done them a world of wood. This year's backfield is not much heavier than last year's but the line has gained considerable in poundage. At the center position Mann of last season's varsity will be stationed at present with Hughes or Davis being able to handle it in case of need. The sentry posts are now occupied by Hughes and Dale, both lettermen, while the former is showing good football allround. Thurston and Witherow are playing regular tackles. Both of these fellows were members of last season's varsity and should be of no little advantage to the team. At the flanks Mohney, Johnston and Davis are in a dead heat for the positions, altho Mohney and Davis are favored, Johnston's size being against him. In the backfield last season's trio of backfield stars are established Mitcheltree, Barnie and Wilson, while Bowes, a new comer, is holding down the fourth place in fine style.

Thus far in the preliminary workout many things have been dwelt upon, from handling points and passes to hitting the "sawdust gridder." The entire team is already clipping and tackling in fine style with some fellows hitting the dummy so hard it has pulverized the sawdust. The backfield is using the bucking harness with fine success, practising charging and ripping holes and several real plungers are in sight.

One casuality has so far been chalked up but the injury was very slight and the injured should be out in uniform before the week end.

ANOTHER CHINESE PUZZLE!



A Film Problem.

How to portray novel denouements in movie romances is one of the problems of the films.

Narrowest of City Streets

In the old city of Bagdad, Turkish Arabia, most of the streets are so narrow that two small donkeys cannot pass. If two donkeys meet in a street one must back out, then scurry ahead before some donkey enters from the far end of the street.

The Higher, the Colder

Temperature decreases with elevation because the air gets drier and higher as we ascend and quickly loses the sun's heat. Nearer the earth the heat is held by the heavy moist air that rests on it.

TUNNEY-GREB BOUT POSTPONED

Cleveland, Ohio, Sept. 10. (INS.)—The scheduled fight between Gene Tunney, light heavyweight champion, and Harry Greb, middleweight champion, was again postponed this afternoon. Weather permitting, the battlers will meet Wednesday night, September 17th.

Finger-Print Records

English authorities keep automobile thefts at a minimum by a system of records which show the original and all subsequent owners of any one car. A finger-print record is also kept. This, together with an owner's license certificate, is an almost sure guarantee against stealing.

Bees Not So Busy.

A honeybee's work consumes about half the hours of daylight, the remaining hours of the twenty-four being spent in rest, according to tests made by the United States Department of Agriculture.

SPORTSMEN'S MEETING

The State Center Game, Fish, and Forestry Association will hold a meeting at Bigler tonight and at Woodland Thursday evening. Both meetings will be called for 8 o'clock.

A number of speakers will explain to the sportsman just what the association is accomplishing and expects to do. Alhtuogh the State Center Game, Fish, and Forestry Association is only two months old, it already has 600 members and is enrolling members at a rapid rate. It is going to be a big help in improving hunting and fishing conditions in Clearfield and Center counties. This association expects to reach the thousand mark in the next 30 days.

The object of association is to see that the game and fish laws are respected and that Clearfield and Center counties get their proper allotment of game and fish.

Clearfield Park

Peculiar Prescriptions

The doctor, in his desire for stronger and quicker remedial value, orders combinations he knows will do good. It is up to the druggist to exert excessive care and exercise extreme knowledge in knowing how to put these combinations together. That is why most doctors in this section send their prescriptions to us. Prescriptions, simple or complex, are best filled here.

BIRTHDAYS THIS MONTH

There are thirty days this month. That will be thirty times an opportunity for a birthday celebration. Remember us for birthday gifts—we carry such a fine assortment and they are adaptable to either boys or girls, young or old.

Toilet Paper Plenty Now

It has been scarce—mighty scarce. Just now new stocks are arriving frequently. New papers in tablets and rolls, bigger than ever and better than ever. Place your orders for the winter supply.

In Your Preserves

Natural fruit flavors and artificial flavors also. Benzoate of Soda and other preservatives if you wish. Tumeric for coloring pickles. Other colors for jellies and ices. It is all a matter of choice. One is not sold for the other but each on truthful representation.

"Dolling Up" Your Fingernails

A simple little manicure outfit aids in the preservation of the hands and the beautifying of the nails. The time required for its use amounts to nothing and the results are a dignified, intelligent, "toney" appearance.

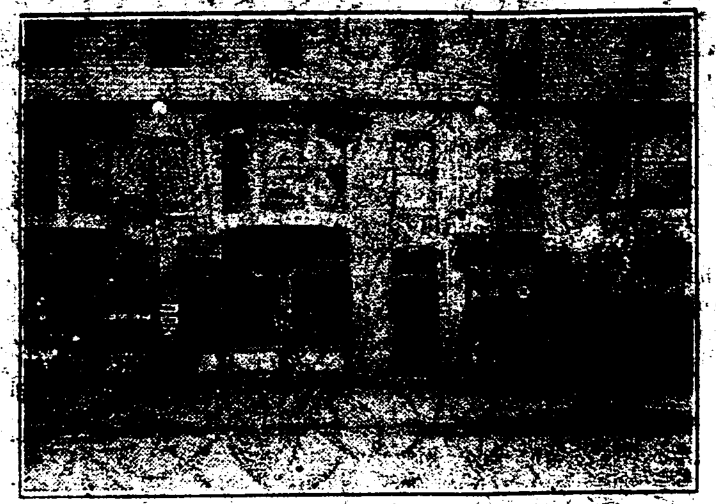
Why it Will Pay You to Trade in Clearfield, Pa.

A CITY OF UP-TO-DATE STORES WHERE YOU GET THE MOST FOR YOUR MONEY!

The Progressive Business Firms whose ads. appear on this page have combined in presenting a series of articles designed to show the most skeptical of persons that it is to their best advantage at all times to Trade in Clearfield. All of the firms here represented have your interests at heart as well as their own and we sincerely hope these articles may be the means of a better understanding between the merchants and the public.

Clearfield Auto Supply Co.



For nearly a decade this pioneer pleasure car agency has been giving the people of this vicinity a service which has been appreciated in a very material way—an ever-increasing business.

Two of the shining lights in motordom, the NASH and the MARMON, are the cars on which the efforts of the entire force are centered both from a sales and service standpoint.

And that the cars are worthy of the service given at this courteous garage, is amply shown by the increasing number of tire carriers stating "Just Another NASH."

Why It Will Pay You To Trade In Clearfield

(Continued from Yesterday.)

Contrast this, if you will, with the mail-order house. There you are merely A NAME. Business is conducted with you on a strictly cash basis, and each and every deal is a cold proposition of dollars and cents. The mail order house is not acquainted with your personal affairs and surroundings. He has no idea of what you could use advantageously, but if he can sell you he will sell you, and your dollar has gone from you and your chances of having it return are slim indeed. That's money that has gone out of circulation as far as you are concerned. But your local dealer, every merchant in Clearfield has more interest in you than that. His transactions with you have the personal touch. He wants you satisfied all the time. And this does not apply merely to your purchases with him, it applies likewise to the community enterprises that are constantly being launched for the betterment of our community as a whole. He puts his money alongside of yours in every such enterprise. But how much does the mail-order house contribute?

You see the point. So let's get together and make Clearfield better for everybody, our neighbors as well as ourselves. Read the ads on this page just as a starter. And watch for this page again next week.

THE STORE OF A THOUSAND VALUES
When we adopted this slogan, we fully intended to live up to the wonderful story it tells of opportunities for thrifty shoppers. And we have lived up to our slogan in every way. We have had buyers continually scouring the markets for real bargains and whether we sell you something for 25c or our highest price limti, $1.00, you may rest assured that we are giving you the best values you can obtain anywhere.

And There Are Thousands of Them.

KANTAR'S 25c TO $1.00 STORE

TABLES ARE TURNED; KLUXER IS KIDNAPED; ROBBED OF PEG LEG

Cincinnati, Ohio. Sept., 10 (INS.) Kidnaped by two men in an automobile when on his way home early today, Thomas Lowe, a crippled salesman for the Fiery Cross, official organ of the K. K. K., was driven to Winton Road, in a distant suburb, stripped, his wooden leg taken from him and thrown from the car.

Three hours later after crawling [illegible] than four miles on his hands, [illegible] exhausted by his efforts and [illegible] by exposure to the cold [illegible], reached the Proctor and Gamble Soap Plant at Ivorydale and managed to attract the attention of [illegible] watchman who summoned [illegible]

The kidnaping occurred at 130th and [illegible] not far from the heart of the business district. A number [illegible] were walking in the vicinity [illegible] not to be aware [illegible] anything was wrong.

[illegible] drove up to Lowe and the [illegible] without a word, grabbed [illegible] and tossed him into the [illegible]. They did not spea whken [illegible] car and refused to re- [illegible] questioned them.

[illegible] to police, had made [illegible] of using "hot" language [illegible] the sales of his paper, and, it is said, had been warned to desist. His stand was at Fourth and Walnut streets, Cincinnati's busiest street intersection.

FIREMEN'S FESTIVAL

Clearfield Fire Company No. is arranging to hold a festival on the pavement in front of the Court House on Saturday evening next and will appreciate your assistance. Solicitors are now at work in the First and lower end of the Second Wards.

Appreciated Fish

The philosopher, on being interrupted in his thoughts by the violent cackling of a hen that had just laid an egg, was led to express his appreciation of a kind Providence by which a fish, while laying a million eggs to a hen's one, does so in a perfectly quiet and ladylike manner.

Man's Composition

Heat, moisture, and air properly combined germinate the seed in the earth. In the same way the spiritual, mental, and physical in man, working together, result in noble manhood. Man is a threefold being.—Grit.

Entirely Uncalled For

Little Doris, visiting in the country, had been stung by a bee. She didn't seem to mind the pain so much, but the child had a sensitive nature and she felt hurt. Between her sobs she said: "I don't see what he did it for, mamma, I hadn't done a thing to him."—Boston Transcript.

COLE BLEASE HAS SMALL LEAD

Columbia, S. C., Sept. 10. (INS.)—Cole L. Blease's lead over Congressman J. F. Byrnes in their race for the United States Senate had been cut down to 1,728 votes at noon today as returns from yesterday's second Democratic primary were tabulated.

With only 40 boxes missing, the count stood: Blease, 97,682; Byrnes, 95,954.

George Roberson, Mrs. Maude Hennemann and Miss Georgie Schnars motored up from New York City Saturday and are spending a few days with the latter's father, D. N Schnars at Hyde.

LIFE SENTENCE FOR LEOPOLD AND LOEB

(Continued From Page Two)

Chicago, Sept. 10 (INS.)—"Like one who wraps the drapery of his couch about him and lies down to pleasant dreams," Nathan Leopold, Jr., and Richard Loeb slept through the long night that ended when they awakened at 6 a. m. today to hear their fate—slept as peacefully as if they had not a care, not a worry in the world.

That passage from William Cullen Bryant's "Thanatopsis" is Leopold's favorite.

Both ate heartily of breakfast, "cleaning up" their trays completely then Leopold lay down on his cot again smoking and reading newspapers while Loeb, in his cell four doors away from that of Leopold, began to dress for the day's appearance in court.

"Whatever it is I'll taek it calmly," was Leopold's comment on the decision when he finally began to dress for court.

"I feel all right," Loeb told assistant Jailor Schwantes, "but I'm glad this strain of waiting for today is over."

"Dickie" attempted to crease his trousers—the trousers of the gray tweed suit he has worn throughout the long hearing—by running the crease between his thum and forefinger. He shined his shoes with a bit of rag.

Leopold laid out his blue suit, the one he has worn throughout the hearing and his sombre-hued tie, while Loeb's bow tie was the only outstanding note of color about their clothing.

ETTERA—QUETHERA

Mr. Samuel Ettera and Frances Quethera were united in bonds of holy matrimony at the St. Francis Catholic Church at 8 o'clock Saturday morning. Rev. Father M. A. Ryan officiatinfi. The ceremony was witnessed by a number of their immediate friends and relatives after which they repaired to the home of the bride's parents, where a sumptuous wedding breakfast was served.

The young couple are well known in this community and their large circle of friends wish them a happy and prosperous journey through life. They will reside here, living at their newly furnished home on Dorcy street.

Miss Belle Read of Clearfield, Pa., is in Washington, D. C., for a few days and is staying at the Grace Dodge Hotel.

Visit Son on Anniversary

Mr. and Mrs. Elbermont Nash, visited their son, "Golden Rule" Arthur Nash, Cincinnati clothing manufacturer, for the first time in seven years, to celebrate their fifty-fifth wedding anniversary. The son recently gave $600,000 to his employees because he did not want to become a millionaire.

JORDAN'S

Their First Meal in U. S.

Lieutenants Arnold (left) and Smith, American 'round-the-world flyers, sit down to a meal of real ham and eggs at the cottage of Nelson Chase at Merepoint, Casco Bay, Me It was their first meal in this country since their return. The flyers were forced to alight at the summer colony because of the heavy fog that made it impossible for them to continue on into Boston that day.

Both Animal and Bird.

One of the strangest animals known is the platypus, a creature inhabiting the river banks of Australia and Tasmania. It resembles both an animal and a bird in that its body and tail are like those of a beaver, while its web feet and bill remind one of a duck. It has teeth for chewing its food but it has no external ear, although its hearing is acute. It lays eggs like a turtle, but suckles its young. A specimen of the animal has been placed on exhibition in the National museum, Washington.

COLD CREAMS FOR WIND-BURN

Folks who are out in the open days like today, realize that wind-burn is just as painful as sun-burn. And we have a cold cream that will relieve the sting and smart.

Wm. Dale of East Stroudsburg is in town on a business trip.

Carl Hile of Lumber City left today for Bucknell University at Lewistown.

Hugh Norris has gone to Carlisle to attend Dickinson College.

Kathryn Zerfoss has returned from a visit in DuBois.

Mr. and Mrs. John Dufton are receiving congratulations on the birth of a daughter at the Clearfield hospital on Sunday evening.

Wm. Boob of Akron, Ohio, and Harry Byers, of Manhattan, Montana, are visiting at the home of Charles Rhine.

John B. McGrath, Esq., was in town on legal business yesterday.

Big London Bridges.

London bridge, England, cost $10,000,000, is 900 feet long and 54 feet wide, with 100,000 persons passing over it every 24 hours. The lamp posts are made from cannon taken during the Peninsular war. Waterloo bridge, London, which was built in 1811-17, is 1,380 feet long and 43 feet wide. But nothing has ever surpassed, in every detail, the New York and Brooklyn suspension bridge, commenced under direction of J. Roebling in 1870, and opened for foot traffic on May 24, 1883. It is 5,989 feet long, the length of the river span being 1,599½ feet, each land span 970 feet above high water, and cost $15,000,000.

Seems Unfair Arrangement

The poor man must go out and weather the storm, while the rich man can stay at home and storm at the weather.

Clark Lippart, who spent his vacation at his home at Litz's Bridge, returned to Harrisburg, where he has a position with the Pennsylvania Rail road Co.

Helen Broome returned home on Sunday from a visit to her former home at Millersburg.

Mrs. Maurice D. Robinson will leave this week to visit her father at Richardson Springs, Chico, California. She expects to be gone a month.

Mr. and Mrs. H. G. Work, of Savannah, Ga., left Clearfield on Saturday for a trip through Pennsylvania and New York. Mrs. Work has been visiting at her home in Glen Campbell and Mr. Work motored there for her. They stopped for a day with Chas. A. Hile's family on Second street. Mr. Work is one of the big lumber men of the United States.

Experience.

Observation more than books, experience rather than persons, are the prime educators. Books aid as one has the wit to use them to advantage, persons most when seeming not to serve us. Experience converts us to ourselves when books fail us, and this oftenest against our knowledge and consent. And it remains questionable how far our attainments further or hinder Nature's intention, the art of education being still so complicated and incalculable a matter that, with the experience of past times to aid us, not a few of the most striking characters have been formed, untrammelled by the schools, under the more direct and potent influences of life and things, operating under the pressure of necessity and seeming accident.—A. Bronson Alcott.

Pantomime Purely a Roman Idea.

Not until the drama had been established for more than 500 years was the pantomime, one of the simplest forms of dramatic art, originated. The drama was the invention of the Greeks but the pantomime was a purely Roman idea. Two aspiring actors, Pylades and Bathyllus, one of whom was afflicted with throat trouble, gave the first performance of this kind in the year 22 B. C. It was only a makeshift on their part because of the illness of one of the performers, but their audience was so delighted that they continued with the production of the wordless drama.

Oldest Confection.

The greater part of black licorice is derived from Spain, where it is made from the juice of the plant and mixed with starch to prevent it from melting in hot weather. The licorice plant is a shrub that attains a height of three feet, and it grows wild where its roots reach the water. It flourishes especially on the banks of the Tigris and the Euphrates river. Since the valley of the Euphrates contained one of the earliest civilizations in the world, the probability is that licorice is about the oldest confection of all, and the taste which the boys and girls of today like so well was enjoyed by the youngsters of 5,000 years ago.—Washington Star.
